Dilution Table

Area To Treat	Water To	Amount of Weed-B-Gon Weed Killer To Add**
167 sq. ft.	1 gallon	2 tablespoonfuls (1/4 fl. oz.)
500 sq. ft.	3 gallons	6 tablespoonfuls (3/4 fl. oz.)
1000 sq. ft.	6 gallons	12 tablespoonfuls (1 1/2 fl. oz.)
10600 sq. ft.	63 gallons	1 quart (32 fl. oz.)

**Note: Use one-half rate for Bent Grasses, Red Fescue, Centipede and Carpetgrass lawns.

WEED-B-GON Lawn Weed Killer is a low volatile formulation especially designed for control of broadleaf lawn weeds and will not injure lawn grasses when used as directed. Do not store diluted spray. Make new dilution for each use.

DIRECTIONS FOR USE ON LAWNS: For control of the weeds listed, apply WEED-B-GON Lawn Weed Killer when weeds are actively growing. Weeds such as Heal-All, Ground Ivy and Wild Garlic are tough to control. They require repeated applications. For best results, use an 0.4% dilution. If new weeds germinate, repeat application as necessary. When air is cool (below 70°F), use the higher dilution rate. Do not apply when temperatures are expected to exceed 90°F. Wait 24 hours after watering before applying. NEW MOWED LAWNS: Wait until grass is established before treating.

BENT GRASSES, RED FESCUE, CENTIPEDE AND CARPETGRASS LAWNS: Use one-half the recommended rate - 1 1/2 teaspoonfuls (1/4 fl. oz.) per gallon of water. Temporary injury may occur. Make 2 applications 10 days apart. Do not apply to Dichondra, Bermuda or St. Augustine grass.

HARDY WEEDS: For hard-to-kill weeds such as Clover, Chickweed, Oxalis and Black Medic, broadcast other areas to be treated 2 to 3 weeks if necessary to control. Brush or hardy vines such as Poison Ivy and Poison Oak ask your dealer for ORTHO Brush Killer.

IMPORTANT: Do not use this product for control of flowers, vegetables, ornamentals or desirable plants. Do not treat lawns for at least 4 weeks after application.

CAUTION: Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes or clothing. In case of contact, flush with plenty of water for at least 15 minutes. Wash hands after use. Keep children and animals away from treated areas until sprays have dried.

Note to Physicians: Emergency information can be obtained by calling (800) 227-8977. Avoid spray drift to plants such as ornamentals, flowers, shrubs, vegetables, fruit trees, vines. Consult label directions if you are less likely to drift. DO NOT USE OR POUR SPILLS NEAR HEAT OR OPEN FLAME.

Empty container completely. Wash thoroughly and destroy. Do not reuse or refill this container. Dispose of empty container in sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke. Do not contaminate water, food or feed by storage or disposal.

This product is to be used only in accordance with the directions on this label or in other Chevron Chemical Company publications. Do not use for any purpose or in any manner not specifically recommended by Chevron Chemical Company.
