to 4/8/98 FAX from Thomas C. Harris, EPA)
Notifications of 7/10/91, 8/30/94, 8/8/94

2/7

Ready-to-use insecticidal dust. Controls: Ants, Brown Dog Ticks, Carpenter Ants, Clover Mites, Cockroaches, Crickets, Earwigs, Fleas, Millipedes, Silverfish, Sowbugs, Spiders (including Black Widow Spider). [Label copy moved from directions for use to improve consumer understanding of product prior to purchase]

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.

INDOOR

When using this product indoors, spot treat only.

COCKROACHES (including strains resistant to certain other insecticides), **ANTS, CLOVER MITES, CRICKETS, FIREBRATS, SILVERFISH, SPIDERS** (including Black Widow Spiders) & **PANTRY PESTS** (including Confused Flour Beetles, Mediterranean Flour Moths, Saw-toothed Grain Beetles, Indian Meal Moths, Rice Weevils & Red Flour Beetles)

- Lightly dust dark corners of rooms & closets, cracks & crevices in walls, along baseboards, behind & beneath sinks, stoves, refrigerators & cabinets, around plumbing, doors & windows, and wherever these pests may be seen.
- Treat ant trails and places where ants find entrance.
- Do not allow the dust to contact food or food preparation surfaces.
- Repeat as needed.

CARPENTER ANTS

Lightly dust cracks and crevices. Using a bulbous squeeze duster, force dust into openings or small newly drilled holes in wall voids where carpenter ants or nests are present. Repeat as necessary.

CARPET BEETLES

Lightly dust along baseboards & edges of carpets, under carpets, rugs & furniture, in closets & on shelving, and wherever these insects are seen or suspected.

FLEAS & TICKS

Spot treat with a light dusting where fleas and ticks may be such as pet's sleeping or resting quarters; localized areas of carpets, rugs and floors; along baseboards; around windows and doors; and cracks and crevices.

- Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment. DO NOT TREAT PETS WITH THIS PRODUCT. To control the source of flea infestation, pets inhabiting the treated areas should be treated with a product registered for application to animals such as FLEA-B-GON® Pet Flea & Tick Killer.

OUTDOOR

ANTS

- Lightly dust along ant trails, along doors & windows, in cracks in cement walks & patios, around garbage cans, under porches, and around house foundations.
- Lightly dust on soil around base of ornamentals. Spot treat nests in lawns.
- Repeat as needed.

BAND TREATMENT AROUND FOUNDATION

For Home Invading Pests: Ants, Brown Dog Ticks, Carpenter Ants, Clover Mites, Cockroaches, Crickets, Earwigs, Fleas, Millipedes, Silverfish, Sowbugs, Spiders (including Black Widow Spider)

- To control and prevent entry of these insects, lightly dust in a 2 ft band next to the foundation of the house. (1 lb treats 72 linear feet).
- Also lightly dust around doors & windows, and other places where insects find entrance and where they crawl or hide.

FIRE ANT MOUNDS

Apply 1 oz. of dust per 1 sq. yd. (3 ft x 3 ft). Sprinkle evenly over and around each mound. Water in lightly with 1 gal. of water. For best results, apply in cool weather or in early morning or late afternoon. Treat new mounds as they appear and retreat mounds showing any activity 2 weeks after first treatment.

~~ORTHO-KLOR® Ant Killer Dust is a ready-to-use insecticidal dust which controls pests as indicated below. [Label copy moved above to improve information flow]~~

~~ANTS Apply dust along ant trails, along doors and windowsills, in cracks in cement walks and patios, around garbage containers, under porches, around house foundations. Dust on soil around base of ornamentals. Spot treat nests in lawns. Repeat as needed.~~

~~BAND TREATMENT AROUND FOUNDATION (OUTSIDE) for Home Invading Pests: The following insects and pests are commonly found around or near the foundation of houses. Many of these insect will enter home seeking food and shelter:~~

- ~~Ants~~ ~~Crickets~~ ~~Fleas~~ ~~Brown Dog Ticks~~
- ~~Earwigs~~ ~~Clover Mites~~ ~~Sowbugs~~ ~~Millipedes~~
- ~~Spiders~~ ~~Cockroaches~~ ~~Carpenter Ants~~ ~~Silverfish~~
- ~~(incl. Black~~
- ~~Widow Spider)~~

~~To control and prevent entry of the above insects, apply ORTHO-KLOR Ant Killer Dust lightly in a two ft wide band along the foundation of the house. Note: One lb will treat a continuous two ft wide band 72 ft long. Also, apply dust around doors and windows or other places where insects enter premises and where they crawl or hide.~~

~~For CARPENTER ANTS also force dust into cracks and crevices or through openings or small newly drilled holes (using a bulbous squeeze duster) into wall voids where carpenter ants or nests are present. Use a sufficient amount to lightly cover area surfaces. Repeat as necessary.~~

~~FIRE ANT CONTROL (MOUND TREATMENT) Apply 1 oz of dust per 1 sq yd (3 ft x 3 ft). Sprinkle evenly over and around each mound and water in lightly with 1 gal of water. For best results, apply in cool weather or in early morning or late afternoon. Treat new mounds as they appear and retreat mounds showing any activity two weeks after first treatment.~~

~~COCKROACHES (including strains resistant to certain other insecticides), ANTS, GLOVER MITES, CRICKETS, FIREBRATS, SILVERFISH, SPIDERS, INCLUDING BLACK WIDOW SPIDERS, AND STORED PRODUCTS INSECT PESTS SUCH AS CONFUSED FLOUR BEETLES, MEDITERRANEAN FLOUR MOTHS, SAWTOOTHED GRAIN BEETLES, INDIAN MEAL MOTHS, RICE WEEVILS, AND RED FLOUR BEETLES which are found in areas such as dark corners of rooms and closets, cracks and crevices in walls, along and behind baseboards, behind and beneath sinks, stoves, refrigerators and cabinets, as well as around plumbing, doors, windows, and wherever else these pests may be seen.~~

~~Application must be made as a spot treatment only. Apply as a light but uniform dust. Repeat treatment as necessary. Do not allow the dust to contact food or food preparation surfaces. Ant trails and areas where ants enter the structure may be treated directly.~~

~~CARPET BEETLES: Apply dust as a spot treatment along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelving, and wherever else these insects are seen or suspected.~~

~~FLEAS AND TICKS: Apply dust as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment. DO NOT TREAT PETS WITH THIS PRODUCT. To control the source of flea infestation, pets inhabiting the treated premises should be treated with a product registered for application to animals such as FLEA-B-GON® Flea Killer (aerosol).~~

STORAGE AND DISPOSAL

STORAGE: Store in original container in a safe place. Keep pesticide in original container. Do not put into food or drink containers. Avoid contamination of feed and foodstuffs. Store in a cool, dry place, preferable in a locked storage area.

DISPOSAL: Do not reuse container. Securely wrap partially filled or empty container in newspaper and put in trash. PRODUCT Partially filled canister may be

~~disposed of by securely wrapping original container in several layers of newspaper and discard in trash. CONTAINER-Do not reuse empty canister. Discard canister in trash.~~

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid contact with eyes, skin or clothing. Wash thoroughly after handling. Wash contaminated clothing before reuse. Avoid breathing dust. Do not allow dust to contact food, feedstuffs and water supplies. Thoroughly wash dishes and food handling utensils with soap and water if they become contaminated by application of this product. Remove pets and cover fish bowls (tanks) before applying. Do not use in poultry houses or other livestock buildings. [Re-entry icon] Do not allow children or pets to contact treated areas until dust has settled.

STATEMENT OF PRACTICAL TREATMENT-FIRST AID: If Swallowed: Immediately telephone a poison control center, emergency treatment center or a physician for advice. DO NOT make person vomit unless directed to do so by medical personnel. If medical advice cannot be obtained, then immediately take person and product container to an emergency treatment center or hospital. If On Skin: Wash with soap and water. If In Eyes: Flush with plenty of water. See a doctor if irritation persists. If Inhaled: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention. Note to Physicians: Emergency Information-call 1-800-225-2883, 457-2022. Chlopyrifos is a cholinesterase inhibitor. If signs and symptoms of cholinesterase inhibition develop, atropine is antidotal. 2-PAM is also antidotal and may be used in conjunction with atropine but should not be used alone.

ENVIRONMENTAL HAZARDS

Toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate. by cleaning of equipment or disposal of wastes.

This product is highly toxic to bees exposed to direct treatment or residues on plants. ~~Protective information may be obtained from your Cooperative Agricultural Extension Service.~~

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
