U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7504P)
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Registration
Number:

239-2712

Date of Issuance:

MAY 20 2011

NOTICE OF PESTICIDE:
 Registration
 Reregistration

(under FIFRA, as amended)

Term of Issuance: Unconditional

Name of Pesticide Product:

Ortho MAT28N COMBO RTU

Name and Address of Registrant (include ZIP Code):

The Scotts Company
d/b/a The Ortho Group
P.O. Box 190
Marysville, OH 43040

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is registered in accordance with FIFRA provided that you:

1. Submit and/or cite all data required for registration review/reregistration of your product when the Agency requires all registrants of similar products to submit data.
2. Submit one-year Storage Stability (Guideline 830.6317) and Corrosion Characteristics (Guideline 830.6320) studies, and Explodability study (Guideline 830.6316) within eighteen (18) months from the date of this notice.
3. Make note of the following in reference to the product labeling:
 - a. The marketing claim "new" can only be used for a period of six months following commercial introduction of this product.
 - b. Should you wish to retain a reference to the company's website on your label, then please be aware that the language presented in the website becomes labeling under the FIFRA and is subject to the false and misleading provisions of 40CFR§156.10(a)(5). Therefore, should the Agency find or if it is brought to our attention that a website contains claims substantially differing from the EPA approved §3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Signature of Approving Official:

Kable Bo Davis
Product Manager 25
Herbicide Branch
Registration Division (7505P)

Date:

MAY 20 2011

The Basic Confidential Statement of Formula (CSF) dated July 30, 2010, and Alternate #A CSF dated April 14, 2011 are acceptable.

A stamped copy of the label is enclosed for your records. Submit one (1) copy of the revised final printed label before you release the product for shipment. Products shipped after eighteen (18) months from the date of this Notice must bear the new revised label. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA §6(e). Your release for shipment of the product constitutes acceptance of these conditions.

If you have any questions regarding this Notice, please contact Mindy Ondish at (703)605-0723 or at ondish.mindy@epa.gov.

EPA Reg. No. 239-2712

Ortho® MAT28N COMBO RTU

ACCEPTED
MAY 20 2011
Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under
EPA Reg. No. 239-2712

Alternate Brand Names

- [Ortho® Weed B Gon® Crabgrass & Weed Killer For Lawns]
- [Ortho® Weed B Gon® Max Crabgrass & Weed Killer For Lawns]
- [Ortho® Weed B Gon® [with]LAWNGUARD Crabgrass & Weed Killer For Lawns]
- [Scotts® Touch Up™₃]

ACTIVE INGREDIENTS:

Quinclorac/3,7-Dichloro-8-quinolinecarboxylic acid [†]	0.100%
Dicamba/3,6-Dichloro-o-anisic acid [††]	0.044%
Aminocyclopyrachlor/6-Amino-5-chloro-2-cyclopropyl-4-pyrimidinecarboxylic acid [†††]	0.010%

OTHER INGREDIENTS:	99.846%
TOTAL	100.000%

- [†CAS# 84087-01-4]
- [††CAS# 1918-00-9]
- [†††CAS# 858956-08-8]

THIS PRODUCT CONTAINS:

- 0.00834 lb Quinclorac per gallon
- 0.00367 lb Dicamba per gallon
- 0.00083 lb Aminocyclopyrachlor per gallon

Note: *If the design, format or small size of container labels makes it impractical to present the entire ingredient statement on the front panel, then add a referral statement and present this substatement on the back panel: "See back panel for substatement of ingredient statement."*

KEEP OUT OF REACH OF CHILDREN

See [back/side/top/bottom] [panel/label] for additional precautionary statements.
[See back for directions.]

PRECAUTIONARY STATEMENTS

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic invertebrates. Drift and runoff may be hazardous to aquatic organism in water adjacent to treated areas. To protect the environment, do not allow pesticide to enter or run-off into storm drains, drainage ditches gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help ensure that wind or rain does not blow or wash pesticide off the treatment area.

This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[Product] Precautions and Restrictions

Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.

Do not allow people or pets to enter treated area until the sprays have dried.

Do not use grass clippings from treated areas for mulch or compost. Grass clippings must either be left on the treated lawn or if allowed by local yard waste regulations, disposed of in the trash.

This product is for spot treatment only. If you plan to [treat your entire lawn][make a broadcast application], use [Ortho[®] MAT28N COMBO CONCENTRATE][Product Name].

This product applies 0.45 lb Quinclorac, 0.20 lb Dicamba, and 0.045 lb Aminocyclopyrachlor per acre. Do not apply more than two times per year to the same area. Allow at least 2 months between applications.

IMPORTANT: [Avoid use]/[Do not use] around fruits, vegetables or flowers. [Use caution]/[Be careful] whenever applying herbicides to drought stressed [plants][turf][lawns] [;stressed turf is more easily damaged by any weed killer/herbicide].

Important: Spray only the weeds, not the entire lawn.

DO NOT use on areas where Dichondra, Lippia or desirable Clover is being grown as [turf]/[a lawn]

HOW AND WHEN TO APPLY

- This product will not harm your grass if applied as directed.
- Apply anytime of day: high temperature does not affect the performance of this product.
- Apply any time weeds are [present]/[actively growing]. [For best results, wait until daytime temperatures are over 60°F for 3 consecutive days.]
- Apply on any turf type* (*excluding Bentgrass, Buffalograss and St. Augustine). Some [transient damage] [temporary yellowing] may occur on Bermudagrass and fine fescue turf.
- Rain or watering [30] minutes after application will not wash away the effectiveness
- Apply [on a calm day]/[when it is not windy].
- [Do not over-apply] [Avoid over-application], especially under the [drip line] [drip zone] [shade canopy] of desirable shrubs and trees.]

NOTE:

Bold, italicized text is information for the reader and is not part of the label.
 [Bracketed information is optional text.] Text separated by a / denotes and/or options.

[KILLS WEEDS] [WEEDS CONTROLLED]

Kills the following [major [broadleaf] [and][grassy] weeds [that occur in your lawn]:

Some or all of the following weeds will appear on the product label

Dandelion	Common catsear (Coastal dandelion)	Lambsquarters
White clover	Common chickweed	Lawn burweed
Crabgrass	Common purslane	Lespedeza
Plantains (including blackseed, bracted, broadleaf and buckhorn)	Common vetch	Matchweed (Lippia)
Large hop clover	Corn speedwell	Moneywort
Pineapple-weed	Creeping buttercup	Mouseear chickweed
Dollarweed	Curly dock	Narrowleaf cudweed
Annual sowthistle	Dichondra	Purple cudweed
Barnyardgrass	English daisy	Purple deadnettle
Bedstraw	Facelis	Prostrate knotweed
Black medic	Field bindweed	Prostrate spurge
Brazilian catsear	Florida betony	Pennsylvania smartweed
Broadleaf signalgrass	Florida beggarweed	Redroot pigweed
Bull thistle	Foxtails (including giant, green, and yellow)	Shepherd's-purse
Burclover (CA burclover)	Ground ivy (Creeping Charlie)	Speedwell (including common, slender, and thymeleaf)
Canada thistle	Hairy bittercress	Spiny sowthistle
Carolina geranium	Hairy buttercup	Stiltgrass
Carpetweed	Healall	Stinging nettle
Chamber-bitter	Henbit	Virginia buttonweed
Cinquefoil	Knawel	Wild onion
Clovers (red and sweet)	Ladysthumb	Wild violet

[Seeding/Sodding/Plugging]

[Bare spots in lawns can be reseeded 4 weeks after application.]
 [If you are planning to seed your lawn with a cool season grass type, bare spots can be reseeded 4 weeks after application. [Do not sod or plant grass plugs for at least one month after using this product.]]

[What to Expect]

[Weed stems and leaves will begin to turn purple, twist and curl within 24 hours, but 2 weeks or more may be required for complete control. Repeat applications may be necessary for larger weeds or heavy infestations.]

Directions For Use Options Based On Applicator

Option 1 – Conventional Trigger Small RTU

[Applicator (Device) (Applicator Name) Directions]

[HOW TO APPLY/USE:] [icon]

- Turn sprayer nozzle to open.
- Adjust sprayer nozzle as desired.

Option 2 – Conventional Trigger Large RTU/Quick Connect Sprayer

[Applicator (Device) (Applicator Name) Directions]

[HOW TO APPLY/USE:] [icon]

1. Remove sprayer from side clip. 2. Pull [color] hose connector and coil from the sprayer handle. 3. Insert hose connector into [color] spout on cap until it clicks into place. 4. Flip up spout. Adjust sprayer nozzle as desired, and spray.

Option 3 - Pull 'N Spray® II

[Applicator (Device) (Applicator Name) Directions]

[HOW TO APPLY/USE:]

[Illustration #1]

- Remove sprayer from side carrier and unwrap hose completely.
- Insert (color of plug) plug at end of hose into (color of spout) spout on cap until it clicks.
- Flip up spout. Spout must remain up while spraying

[Illustration #2]

- Twist nozzle at end of sprayer to desired spray pattern.

[Illustration #3]

- Point sprayer away from body.
- Grasp sprayer by the handle.
- Slowly pull ring at bottom of sprayer handle until it stops.
- Hold for two (2) seconds to allow product to fill the sprayer.

[Illustration #4]

- Press and hold button on sprayer to begin spraying.
- Pull ring at sprayer bottom again as needed to continue spraying.

[HOW TO APPLY/USE:] [icon]

Follow illustrations and instructions above. Twist nozzle at end of sprayer to desired spray pattern. Point sprayer away from body and press sprayer button to begin spraying. Pull ring at sprayer bottom again as needed to continue spraying.

NOTE:

Bold, italicized text is information for the reader and is not part of the label.
[Bracketed information is optional text.] Text separated by a / denotes and/or options.

Option 4 – Battery Sprayer

[Applicator (Device) (Applicator Name) Directions]

[HOW TO APPLY/USE:]

[1. Remove] Remove [applicator name] wand from side [carrier/holder/clip] [Illustration #1 & 2]

- Unwrap hose completely
- Remove protective strip from battery compartment to activate batteries

[2. Connect] Insert [color of plug] plug at end of hose into [color of spout] spout on cap until it clicks. Flip up spout. Spout must remain up while spraying [Illustration #3]

[3. Extend] Flip open [applicator name] wand until it locks into position [Illustration #4]

[4. Spray] Twist nozzle at end of [applicator name] wand to desired spray pattern. [Ensure trigger lock is disengaged before spraying.] Hold [color of trigger] trigger for continuous spray. [Illustration #5]

[HOW TO APPLY/USE:] [icon]

Follow illustrations and instructions above. Twist nozzle at end of [applicator name] wand to desired spray pattern. Point [applicator name] wand away from body and hold [color of trigger] trigger for continuous spray. Release trigger to stop spray.

[After Use: twist nozzle to OFF position. [Engage trigger lock.] Flip the [applicator name] wand closed and store on the side [carrier/holder/clip].]

Important Use Information: Do not submerge in water. When storing sprayer for long periods, remove batteries.

To replace batteries: Open battery compartment at bottom of [applicator name] wand. Remove used batteries and replace with four new AA batteries in correct position as marked per diagram inside battery compartment. Securely close battery compartment door. Always use a complete set of the same type when replacing batteries. Never mix alkaline, carbon-zinc or rechargeable batteries.

Option 4 - Trouble Shooting Section for Battery Powered Wand

[Troubleshooting Tips:

Problem: Sprayer does not spray [function].

Possible Cause: Batteries not installed properly.

Solution: See instructions for correct battery placement.

Problem: Sprayer makes a straining noise [Sprayer runs but nothing [no product] comes out].

Possible Cause: Nozzle is turned Off.

Solution: Turn nozzle to [desired] spray setting [position].

Possible Cause: [Red] [color] plug at end of hose is not flipped up.

Solution: Insert [color of plug] plug at end of hose into [color of spout] spout on cap until it clicks and flip up spout.

Possible Cause: Sprayer is not primed.

Solution: Press and hold button on sprayer for about [X] seconds to prime the sprayer.

Problem: Spray pattern is weak [or uneven] [product flow is uneven or dribbles out of nozzle].

Possible Cause: Weak batteries.

Solution: Install a fresh set of batteries.

Possible Cause: [Red] [color of plug] plug at end of hose is not flipped up.

Solution: Insert [color of plug] plug at end of hose into [color of spout] spout on cap until it clicks. [Attach coupler to the cap] and flip up spout. Possible Cause: Nozzle not fully open.

Solution: Turn nozzle to [desired] spray setting [position].]

Option 5 – Pump-n-Go® Applicator

[Applicator (Device) (Applicator Name) Directions]

[HOW TO APPLY/USE:]

1. CUT

Carefully cut the two white zip ties securing the hose and pump handle with scissors. Use caution not to cut the white hose. [photo]

2. CONNECT

Unwind hose. Firmly push the connector at the end of the hose onto the spout on the pump, until it locks into place. [photo]

3. EXTEND WAND

Lift sprayer wand off bottle. Push yellow button while pulling out on the wand nozzle tip. Fully extend wand until yellow button snaps into SPRAY position. NOTE: White trigger will not function until wand is fully extended and yellow button is visible in the spray position. [photo]

4. PUMP

Make sure handle is screwed on TIGHTLY or the bottle will not pressurize. Pump container 10 - 20 times to pressurize bottle. A full bottle requires fewer pumps than an empty bottle. Pumping to the higher range will provide longer spray duration. After pumping, push pump down and turn handle clockwise to lock into carrying position. NOTE: This bottle is designed to expand under pressure and cannot be over-pressurized. [photo]

5. SPRAY

Aim wand. Spray by pushing down yellow trigger with thumb. Adjust spray pattern by rotating white nozzle tip up to one-half rotation. [photo]

6. STORE

When finished spraying, push the yellow button and push the wand until the yellow button snaps back into the original storage position. Place wand back onto the bottle with nozzle facing down. [photo]

7. DEPRESSURIZE

Push pump handle all the way down and turn pump handle and cap counter-clockwise to relieve pressure, then retighten prior to storing. [photo]

Option 6 – Other Pump Style Applicator

[Applicator (Device) (Applicator Name) Directions]

[HOW TO APPLY/USE:]

[1.] TO USE

Remove wand from holster and pull the hose from the storage compartment. Turn the pump handle clockwise/counterclockwise to make sure the pump is tight [and push the pop-up pressure indicator completely down] before pumping. [photo]

[2.] TO PUMP

Turn the pump handle clockwise/counterclockwise [one-quarter turn] to release the handle. [Pump the sprayer] [until the pressure indicator pops up about an inch]. [That's your signal you are ready to spray.]

NOTE:

Bold, italicized text is information for the reader and is not part of the label.
[Bracketed information is optional text.] Text separated by a / denotes and/or options.

Turn the pump handle clockwise/counterclockwise [one-quarter turn] to secure the handle for carrying. [photo]

[3.] TO SPRAY

Begin spraying by pushing the lever on the spray handle down. Rotate the nozzle at the tip of the wand to adjust spray from a stream to gentle mist. For continuous spraying, push the lever down and slide forward to lock. Pull back to release. [photo]

[[4.] TO STORE

Slowly turn the pump handle clockwise/counterclockwise to untighten and release pressure, then turn back clockwise/counterclockwise to retighten the handle. Push the hose back into the storage compartment and put the wand back in holster.] [photo]

Optional [Reuse and] Refill Directions

REFILL: This container may be refilled with [Ortho® MAT28N COMBO RTU] [Product Name]. To refill, pour [Ortho® MAT28N COMBO RTU] [Product Name] into this container. DO NOT add water.

Pesticide Storage and Disposal Options Based On Applicator

STORAGE AND/ & DISPOSAL

PESTICIDE STORAGE: Keep from freezing. Keep pesticide in original container. Do not put into food or drink containers. Avoid contamination of feed and foodstuffs. Store in a cool, dry place.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste disposal agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Option 1 – Conventional Trigger Sprayers

STORAGE AND/ & DISPOSAL

PESTICIDE STORAGE: Rotate nozzle to closed position. –OR– Turn sprayer nozzle to “OFF” [X]. Keep from freezing. Keep pesticide in original container. Do not put into food or drink containers. Avoid contamination of feed and foodstuffs. Store in a cool, dry place.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste disposal agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Option 2 – Quick Connect Sprayer

STORAGE AND/ & DISPOSAL

PESTICIDE STORAGE: Flip down spout to close. No need to disconnect trigger sprayer. Close nozzle on trigger sprayer [Turn sprayer nozzle to “OFF” [X]]. Snap sprayer back in place. Keep from freezing. Keep pesticide in original container. Do not put into food or drink containers. Avoid contamination of feed and foodstuffs. Store in a cool, dry place.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste disposal agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTE:

Bold, italicized text is information for the reader and is not part of the label.
[Bracketed information is optional text.] Text separated by a / denotes and/or options.

Option 3 – Pull ‘N Spray II

STORAGE AND/ & DISPOSAL

PESTICIDE STORAGE: Completely discharge/dispense product in sprayer prior to storage. Flip down [color of spout] spout on cap. **DO NOT DISCONNECT SPRAYER HOSE FROM CAP.** Place sprayer back inside carrier on bottle with the nozzle facing down. Keep from freezing. Keep pesticide in original container. Do not put into food or drink containers. Avoid contamination of feed and foodstuffs. Store in a cool, dry place.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste disposal agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Option 4 – Battery Powered Wand

STORAGE AND/ & DISPOSAL

PESTICIDE STORAGE: Flip down [color of spout] spout on cap. **NO NEED TO DISCONNECT SPRAYER HOSE FROM CAP.** Completely discharge/dispense product in sprayer prior to storage. Twist sprayer nozzle to the OFF position. [Engage trigger lock.] Flip the [applicator name] wand closed and place [sprayer] back in side carrier [clip/holder]. Keep from freezing. Keep pesticide in original container. Do not put into food or drink containers. Avoid contamination of feed and foodstuffs. Store in a cool, dry place.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste disposal agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Option 5 - [Pump-n-Go® Applicator] [Refillable Container]

STORAGE AND/ & DISPOSAL

PESTICIDE STORAGE: Keep from freezing. Keep pesticide in original container. Do not put into food or drink containers. Avoid contamination of feed and foodstuffs. Store in a cool, dry place.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Do not reuse or refill this container unless the directions for use allow refill according to the directions contained on the REFILL section. See the REFILL section for details. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste disposal agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Option 6 – [Other Pump Style Applicator] [Refillable Container]

STORAGE AND/ & DISPOSAL

PESTICIDE STORAGE: Slowly turn the pump handle clockwise/counterclockwise to untighten and release pressure, then turn back clockwise/counterclockwise to retighten the handle. Push the hose back into the storage compartment and put the wand back in holster. Keep from freezing. Keep pesticide in original container. Do not put into food or drink containers. Avoid contamination of feed and foodstuffs. Store in a cool, dry place.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Do not reuse or refill this container unless the directions for use allow refill according to the directions contained on the REFILL section. See the REFILL section for details. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste disposal agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
