ANTIDOTE AND OTHER MEASURES: Use as directed on label.

Do not use if container is damaged or if contents are not as labeled.  
Do not use if you cannot read the label. Do not use this product if the label has been fully explained to you.

**DANGER!**

ACIDIC: ONLY INHALATION OF SWALLOWING, RAPIDLY DISPOSED THROUGH SKIN, UPTAKE INHALATION OR SKIN CONTACT MAY, WITHOUT SYMPTOMS, BECOME TOXIC BY FAST SEVERELY POISONING.

Do not get in eyes, on skin, or in mouth.  
Wear protective clothing, gloves, and shoes when handling.  
Do not breathe dust or fumes.  
Do not use if container is damaged or if contents are not as labeled.

Do not breathe dust or fumes.  
Do not use if container is damaged or if contents are not as labeled.

Do not breathe dust or fumes.  
Do not use if container is damaged or if contents are not as labeled.

Do not contaminate food or feed.  
Do not use if container is damaged or if contents are not as labeled.

Do not use if container is damaged or if contents are not as labeled.

Do not use if container is damaged or if contents are not as labeled.

In case of an emergency endangering  
life or property involving this  
product, call collect, day or night,  
Area code 201 - 835-3100.

**Antidote:** Atropine is an antidote. Ask your physician about obtaining a supply of 1/100 grain (0.6 milligram) tablets for emergency use. If symptoms include blurred vision, stomach cramps or tightness in chest, don't wait for a physician but take two tablets at once. Do not take atropine unless symptoms of poisoning have occurred. Anyone who has been sick enough to have taken atropine must be seen by a physician as soon as possible.

#### FIRST AID

If swallowed, induce vomiting by sticking finger down throat or by giving soap or strong salty water to drink. Repeat until vomited clear. Never give anything by mouth to an unconscious person.  
If inhaled, remove to fresh air. If not breathing, give artificial respiration, preferably mouth to mouth. If breathing is difficult, give oxygen.  
In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before re-use.

CALL A PHYSICIAN AT ONCE IN ALL CASES OF SUSPECTED POISONING.

**NOTE TO PHYSICIANS:** Warning symptoms include weakness, headache, tightness of chest, blurred vision, nonreactive pinpoint pupils, salivation, sweating, nausea, vomiting, diarrhea and abdominal cramps. Give atropine intramuscularly or intravenously, depending on severity of poisoning, 2 to 4 milligrams (3 to 6 tablets, 1/100 grain each) every 15 minutes until fully atropinized as shown by dilated pupils, dry flushed skin and tachycardia. Twenty to thirty milligrams or more may be required during the first 24 hours. Never give opiates or phenothiazine tranquilizers. Clear chest by postural drainage. Artificial respiration or oxygen administration may be necessary. Observe patient continuously for at least 48 hours. Allow no further exposure to any cholinesterase inhibitor until cholinesterase regeneration has taken place as determined by blood tests. Pralidoxime Hydrochloride (2-PAM) PROTOPAM chloride may be effective as an antidote to atropine. Use according to label directions.

#### INDICATIONS FOR USE

Do not use this product for any uses other than those specified on this label. BNYH is an effective soil and systemic insecticide for early season insect control which has been combined with fertilizer for efficient and uniform application. Application should be made at planting time. Application at rates higher than those shown on label may result in illegal crop residues.

**WHEAT:** For control of grasshoppers, aphids and Hessian fly, apply at the rate of 100 lbs. (1.0 B) actual liberate per acre in the seed furrow at planting time. Do not feed or graze foliage within 14 days of treatment. For aphid and grasshopper control, use only in the seed furrow with extra care.

#### WARRANTY

American Cyanamid Company warrants that this product, when used in accordance with the directions thereon, conforms to the description of the product on the label and is generally fit for the use thereon described, except insofar as it may be limited by the directions thereon. Any damages arising from the use of this product shall be limited to a refund of purchase price and shall not include consequential damages, including lost profits or value of crops. American Cyanamid Company makes no other warranty, expressed or implied, and BNYH is sold "AS IS". BNYH assumes the risk of use of this product under conditions other than those stated on the label. American Cyanamid Company is not liable for any damages arising from the use of this product.
