DISINFECTANT-CLEANER

DISINFECTANT CLEANER DEODORIZER FUNGICIDE SANITIZER

DIRECTIONS FOR EFFICIENT AND ECONOMICAL USE AS A DISINFECTANT • CLEANER • FUNGICIDE • DEODORIZER

GENERAL INDUSTRIAL AND HOUSEHOLD PURPOSES: Dilute 2 Fl. Oz. per gallon of water (1 to 64) for DISINFECTION AND FUNGICIDAL activity against Pathogenic Fungi. NOTE: Pre-clean heavy soil or gross filth deposits with a dilute solution of Triad prior to application at the noted dilution to ensure proper disinfectant action.

FLOORS: Apply with a clean cloth, sponge, mop or sprayer. Rub or provide mechanical agitation to loosen soil. Allow solution to remain in contact with surface for several minutes, then take up with a sponge, mop or vacuum pickup. If floor polish is to be applied, rinse with clear cool water, otherwise rinsing is not needed.

COUNTER TOPS, WALLS: Apply with a clean cloth or sponge, rubbing to loosen soil. Wipe off and let dry. No rinsing is needed.

HOSPITALS, CLINICS, NURSING HOMES, PUBLIC AREAS: Dilute 3 Fl. Oz. per gallon of water (3 to 128) for DISINFECTION against PSEUDOMONAS AERUGINOSA and FUNGICIDAL ACTIVITY against PATHOGENIC FUNGI. Follow application directions as noted under General Industrial and Household Purposes.

As a SANITIZER: For all hard surfaces, food processing equipment, food utensils. Dilute 2 Fl. Oz. per 2 1/2 gallons of water (1 to 160). This dilution provides 200 ppm of active quaternary per gallon of water.

A POTABLE WATER RINSE IS REQUIRED BEFORE REUSE OF EQUIPMENT. This product, at this concentration, fulfills the criteria of APPENDIX F of the GRADE "A" PASTEURIZED MILK ORDINANCE 1965 RECOMMENDATION of the U.S. PUBLIC HEALTH SERVICE in water up to 450 ppm of hardness, calculated as CaCO₃ when tested by the AOAC GERMICIDE and DETERGENT SANITIZERS OFFICIAL METHOD.

*NOTE: Rinse empty containers thoroughly with water and discard it.

This product authorized for use under USDA Consumer and Marketing Service Inspection Programs for Poultry, Meat, Rabbit and Egg Product Plants. However, the sanitizing directions on appropriate panel must be followed, including a potable water rinse, and all food and packaging equipment must be first removed from the room or carefully protected.

ACTIVE INGREDIENTS	6.2%
Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides	1.6%
Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides	1.6%
Sodium carbonate	3.0%
INERT INGREDIENTS	93.8%
Includes efficient cleaning detergents, builders, sequestering agents, dye, odorants and water.	

DANGER:

KEEP OUT OF REACH OF CHILDREN.
