DIRECTIONS FOR USE

Press actuator and spray from a distance of 4 - 6 inches from the dog or cat. Start spraying at the tail moving upward to the back of the neck including the legs and under the body. While spraying fluff the hair to allow spray to penetrate or until hair is damp. Spray ticks directly. Avoid spraying eyes, face or scrotum. Repeat as needed but not more often than once every 7 days. Treat bedding, kennel and quarters with the spray, contact as many insects as possible with the spray.

In use this spray makes a slight hissing sound and occasionally nervous animals may become frightened on initial use, however, they soon become accustomed to treatment.

WARNING:

Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130° F may cause bursting. Never throw container into fire or incinerator.

CAUTION: Keep Out of Reach of Children
