Solu-Pinol is a concentrated disinfectant. Only Pine Oil triple distilled for purity is used in making Solu-Pinol. Solu-Pinol makes an aromatic milky white emulsion when diluted with water. For use in hotels, motels, schools, public buildings, commercial buildings and industrial plants.

DIRECTIONS FOR USE

Dilute Solu Pinol one-half pint to three gallons hot or cold water for scrubbing and disinfecting floors, walls, desks, tables, lavatories, sinks, exterior toilet bowl surfaces, toilet seats, and urinals. Mop, wipe, or spray this product to wet surface thoroughly with the recommended use-dilution.

For interior toilet bowls add 3 oz. undiluted. Swab or wipe bowl.

Rinse empty container thoroughly with water and discard it.

CAUTION: Keep Out of Reach of Children.

AVOID CONTAMINATION OF FOOD

If swallowed do not induce vomiting, vomiting may be harmful. If you are a child, do not swallow. If you are an adult, do not swallow. If you are a child, do not swallow. If you are an adult, do not swallow.
