WEEDONE LV6

For Weed Control in
Small Grains
For Use in Oil Only

CAUTION: Keep out of the reach of children.
See other cautions on right side panel.

ACTIVE INGREDIENTS:
2,4-Dichlorophenoxyacetic Acid, Butoxyethanol Ester* 88.1%
INERT INGREDIENTS: 11.9%
*2,4-Dichlorophenoxyacetic Acid equivalent 60.6% by weight
or 6 pounds per gallon.

AMERICAN PRODUCTS, Inc.
Manufacturers of 2,4-D and other Agricultural Weeds-Killers
ANN ARBOR, MICH. • CHICAGO, ILL. • DALLAS, TEX. • LOS ANGELES, CALIF.

GENERAL DIRECTIONS

WEEDONE LV6 contains 6 pounds of 2,4-D acid equivalent per gallon as the low volatile butoxyethanol ester. This ester is definitely less volatile than the older methyl, ethyl, isopropyl and butyl esters. WEEDONE LV6 is formulated to mix in oil. It should not be used in water or oil-water sprays.

DIRECTIONS FOR USE

WEEDS IN CROPS	AMOUNT PER ACRE WEEDONE LV6	DIRECTIONS
Spring seeded wheat, barley, rye	1/2 pint	For annual broadleaf weeds, Spray after grain is fully tillered (about 4 to 6 inches tall) but before it is in the boot stage.
	1/2 to 3/4 pint	For perennial broadleaf weeds. Spray after grain is fully tillered (about 4 to 6 inches tall) and when weeds are nearing the bud stage. Do not spray grain in the boot to dough stage. Consult local authorities about the best rate for your specific weed problem.
Fall seeded wheat, rye	1/2 to 3/4 pint	Use the lower rate where annual broadleaf weeds are the problem. Spray in the spring before grain is in the boot to dough stage. Do not forage or graze treated grain fields within two weeks after treatment with this product. Do not feed treated straw to livestock.

WEEDS IN FALLOW LAND, GRASS PASTURES

1 1/2 to 2 1/2 pints

For annual broadleaf weeds. Spray when these weeds are young and growing vigorously.

Spring seeded wheat and barley 2 1/2 to 4 pints

For perennial broadleaf weeds. Spray when these weeds are actively growing and near the bud stage. Repeat applications may be needed for complete control. Do not graze livestock for seven days after spraying pastures with this product.

For aerial application apply 1/3 to 1 pint of Weedone LV-6 in a minimum of 1 gallon of oil per acre.

Aerial spraying is a specialized job. Secure qualified technical guidance and employ a competent, reliable applicator. Become familiar with state laws governing the use of herbicides.

The above recommendations are general. Because of variation in soil, moisture conditions, weed population, etc. consult agricultural experiment station or extension service weed specialist.

To convert local recommendations into terms of WEEDONE LV6, use the following table:

2,4-D Acid	3 lb. (18 oz.)	2 lb. (32 oz.)	1 lb. (16 oz.)	1/2 lb. (8 oz.)	1/4 lb. (4 oz.)
WEEDONE LV6	4 pt.	2 1/2 pt.	1 1/2 pt.	3/4 pt.	1/2 pt.

TO PREPARE A SPRAY: Add one-half the required amount of oil to the spray tank, then add this product with agitation and finally the balance of the oil with continued agitation. Do not let water get into this product or the finished mixture.

Harmful if swallowed. Avoid contact with skin, eyes or clothing.

Avoid spray drift to susceptible plants as this product may injure cotton, beans, peas, grapes, ornamentals, etc. Coarse sprays are less likely to drift. Do not use same spray equipment for other purposes unless thoroughly cleaned.

Do not store near fertilizers, seeds, insecticides or fungicides. Under very high temperature, vapors from this product may injure susceptible plants in the immediate vicinity. Do not contaminate water used for irrigation or domestic purposes. Do not use in a green house.

Avoid contamination of lakes, streams or ponds as this product may kill fish.

Do not reuse empty containers. Destroy when empty. Do not burn.

Do not use this product for purposes other than those recommended on this label.

Amchem warrants that composition of this product conforms to the chemical description given in the ingredient statement and the product is suited for the purposes described when used according to directions. Because of the broad range of conditions which may be encountered with the use of this product, it is impossible to eliminate all risks, even though label directions are followed. Amchem therefore makes no other express or implied warranty, and no agent of Amchem is authorized to do so. Buyer agrees in purchasing this product to assume the risks and in the event of damages arising from a breach of the warranty to accept refund of the purchase price of the product as full discharge of Amchem's liability.

For specific problems, write to Agricultural Chemicals Division, AMCHEM PRODUCTS, INC., Ambler, Pennsylvania.

This material is manufactured under and its use is licensed under one or more of the following U. S. Patents: 2,390,941 and 2,543,397.

Annual and Biennial Weeds

<u>beggar-ticks</u>	<u>morning-glory</u>
<u>bull thistle</u>	<u>mustard</u>
<u>burdock</u>	<u>parsnip</u>
