

Apply ORNAMENTAL WEEDER 4G to weed-free ornamental plantings at the rate of 100 lbs per acre. ORNAMENTAL WEEDER 4G PREEMERGENCE HERBICIDE must be applied in the spring before weeds germinate, or to freshly cultivated soil. It will not control weeds which have already germinated or emerged. It will not control perennial weeds.

Do not incorporate ORNAMENTAL WEEDER 4G into the soil.

If no rain falls within one week of application, apply 1/2 inch of overhead irrigation. This will wash the chemical into the soil where it kills germinating weeds.
