**PRECAUTIONARY STATEMENTS
HAZARDOUS TO HUMANS
AND DOMESTIC ANIMALS**

DANGER Highly corrosive. Causes severe eye damage. May be fatal if swallowed. Do not get into eyes. In skin contact, it will burn. Wear goggles at all times and outer clothing when handling. Wash thoroughly after use. Avoid breathing dust, fumes, and vapors. Wash face after use. Do not breathe dust.

ENVIRONMENTAL HAZARDS This product is highly toxic. Do not discharge into drains, streams, or other bodies of water. Do not mix with nitrogen fertilizer or other chemicals.

PHYSICAL AND CHEMICAL HAZARDS STRONG OXIDIZING AGENT. MIX ONLY WITH WATER IN A CLEAN DRY UTENSIL. Do not add to any other dispensing device containing remnants of any other product. Such use may cause an explosion, leading to fire or explosion. CONTAMINATION WITH MOISTURE, ACIDS, ORGANIC MATTER, OTHER CHEMICALS MAY START A CHEMICAL REACTION WITH GENERATION OF HEAT, IGNITION, OR HAZARDOUS GAS, AND POSSIBLE GENERATION OF FIRE AND EXPLOSION. In case of contamination or decomposition, do not breathe vapors. If possible, flush contaminated area with water. Flood with large volumes of water if necessary.

EPA Reg. No. 662

**KEEP OUT OF REACH OF CHILDREN
DANGER**

PRACTICAL TREATMENT (FIRST AID) If swallowed, do not induce vomiting. If you feel ill, call a physician. If you are having trouble breathing, call a physician.

If on skin Flush with water for at least 15 minutes. Wash thoroughly with soap and water. If irritation persists, call a physician.

If in Eyes Flush with water for at least 15 minutes. Call a physician.

STORAGE AND DISPOSAL Keep in original tightly closed container. Store in a cool, dry, well-ventilated area away from heat and flame. Do not use if container is damaged. Do not mix with any other chemicals. Do not dump into drains or water bodies. Dispose of in accordance with local, state, and federal regulations.

EPA Reg. No. 662

DIRECTIONS FOR USE

Always use proper safety precautions when handling this product.

TRI-CHEM 90 is a powerful oxidizing agent that provides a long-lasting residual chlorine level. It is effective against algae, bacteria, and viruses. It is also effective against iron and copper stains. Use according to directions on label.

TREATING NEWLY FILLED POOLS

Add **Pool Stabilizer** to the pool water before adding **Super Chlor Plus** to prevent chlorine from reacting with the pool water.

REGULAR TREATMENT FOR POOLS IN USE

Add **Tri-Chem 90** to the pool water according to the directions on the label. Do not use in hot tubs or spas. Do not use in swimming pools with a pH level below 7.2 or above 7.8.
