Gallon

PYRENONE FLY SPRAY

Niagara Pyrenone Fly Spray contains a new formulation of pyrethrin, which is highly effective for use against flies and mosquitoes.

DIRECTIONS

Use Pyrenone Fly Spray in the following manner: It may be made using a pump sprayer or a fogger.

SPACE SPRAY: Use Pyrenone Fly Spray in sheds, stables, corrals, etc., where flies and mosquitoes are a problem. Spray whenever possible.

LIVESTOCK SPRAY: Apply Pyrenone Fly Spray to cattle, beef cattle, horses, etc., to protect against horn flies, stable flies, and mosquitoes. Apply as a body spray, 1 to 2 ounces per animal. In areas where mosquitoes are a problem, they be treated at intervals. Apply from top line, under the neck, and on other body areas. Regular application will afford protection from these pests.

100% PYRETHIN
