#### DIRECTIONS FOR USE

For application on bright, Early Blight, and late blight  
infestations caused by Bedworms, Hornworms, Flea  
beetles.

Agricultural sprayer made at the rate of 2 quarts of water  
per acre, spray until the plants and foliage become wet.  
Reapply at same rate daily, for the control of new infestations  
and for the control of old infestations.

Do not spray on days when temperatures are above 85° F.
