NIACIDE** M DUST

FUNGICIDE

DIRECTIONS FOR USE

For early-season control of rust and scab on varieties of apples which are especially susceptible to fruit-rotting such as Golden Delicious, Grimes Golden and Jonathan use this material in the pre-bloom and bloom applications where insecticides are not required. Applications should be made at the rate of 1 to 2 pounds per tree depending upon the size. Make repeated applications as required to keep the trees fully protected from the time new growth starts in the spring. Dusting in the rain is recommended if the trees are not protected when a "drizzle" occurs.

For control of Nectar Nectar M.D. (varieties) control of scab, use this material in the pre-bloom and bloom applications for control.

USDA REG. NO. 7-1141

ACTIVE INGREDIENTS:

Manganous dimethyldithiocarbamate	4.80%
Manganous benzothiazylmercaptide	.24%
Thiram (Tetramethylthiuram disulfide)	1.24%
2,2'-Dithiobisbenzothiazole	.22%

INERT INGREDIENTS 93.50%

100.00%

CAUTION KEEP OUT OF REACH OF CHILDREN.

May be harmful if swallowed or inhaled. May cause irritation of eyes, nose, throat and skin. Avoid contact with eyes, skin or clothing. Avoid breathing dust or spray mist. In case of contact flush with plenty of water. For eyes, get medical attention.

Fire hazard - Keep away from fire and sparks.

This product is toxic to fish. Keep out of any body of water. Apply this product only as specified on this label.

DISPOSE OF WASTES by burying in non-crop lands away from water supplies. Container should be disposed of by burying with wastes or by burning. Keep out of smoke.
