This product contains Bentonite Sulfur. Bentonite Sulfur is made by the absorption of fumed sulfur into Bentonite in the proportion of thirty parts sulfur and seventy parts Bentonite. A portion of the sulfur particles are very minute, some of them colloidal. The process of manufacture and the character of the sulfur particles impart to the product distinctive properties with respect to toxicity to certain fungi, persistence on plants, susceptibility in spray tank and safety to host plants.

This product is toxic to fish. Keep out of any body of water. Apply this product only as specified on this label.

DISPOSAL WARNING: Dispose of wastes by burying in non-crop lands away from water supplies. Burn bag. Keep out of smoke.
