**INACTIVE INGREDIENTS**

1-chloro-2,4-dichlorobenzene	10.0%
Pentachloro- <i>o</i> -cresol	5.0%
<b>ACTIVE INGREDIENTS</b>	<b>85.0%</b>
	<b>100.0%</b>

(18 pt. type)      **WARNING: KEEP OUT OF REACH OF CHILDREN**

(18 pt. type)      May be fatal if swallowed, inhaled or absorbed through skin. Wear protective clothing, rubber gloves and goggles during handling and application. Wear a mask or respirator containing a carbon-type cartridge. Replace cartridge daily. Do not get in eyes. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention. Avoid repeated contacts with skin. In case of contact, wash immediately with soap and water.

LANSTAN 10-PCMB 5 GRANULAR is a soil fungicide for use in the control of certain cotton seedling diseases relating to *Fusarium*, *Pythium* and *Rhizoctonia* species of soil fungi.

**NOTICE:** This treatment is not intended as a substitute for regular fungicide seed treatment. The in-furrow treatment should be used in conjunction with a recommended seed treatment.

**DIRECTIONS FOR USE**

Apply 10 pounds Lanstan 10 PCMB 5 Granular as an in-furrow treatment during the planting operation. The planter shoe should be arranged to apply one-half the granules on the seed and opened seed furrow just behind the planter shoe in a band two to three inches wide, and one-half the granules into the covering soil as the furrow is being closed. Shoe arrangements will vary according to the type of equipment but they should be arranged to treat all of the soil that surrounds and covers the seed.

**CUTION:** Use of this material in excess of the amount specified herein is not recommended. Excessive use may produce phytotoxicity or other undesirable results.
