Granular 5% Chlordane

INSECTICIDE

NET WEIGHT
50 LBS.

DIRECTIONS FOR USE

Niagara Granular 5% Chlordane is designed for application to the soil for the control of insects attacking the roots of certain crops. Application may be made with any equipment suitable for applying the recommended amounts of this material per acre. Treatments should generally be made in the spring.

Soil treatments with this material are effective for one or more years. Repeat applications when new infestations appear to be developing.

CROPS	INSECTS	AMOUNT TO APPLY PER ACRE*
Potatoes		
Sweet Potatoes		
Tomatoes		
Tobacco	Wireworms	80 - 120 pounds
Small Grains (Wheat, Rice, Oats, Barley)		
Corn		

Amount to apply per acre depends upon soil type. Sandy soils require the lower rate, very heavy soils the higher rate. Consult State Experiment Station personnel regarding the amount to use. Apply to the soil before planting. Work into top 3 to 6 inches of soil by disking or harrowing.

Corn	Corn rootworms	40 pounds
	Seed corn maggots	

Apply to soil surface before planting. Work into the top 3 to 6 inches of soil by disking or harrowing. Consult State Experiment Station personnel for further information on amount to apply.

Onions	Onion maggot	20 - 40 pounds
--------	--------------	----------------

Apply to soil surfaces before planting. Work into top 2 to 3 inches of soil by disking or harrowing.

Lawns	White grubs	100 - 200 pounds (2-1/2 to 4-1/2 pounds per 1000 square feet)
-------	-------------	--

Ornamental Turf Nursery Soils	Japanese beetle	200 pounds (4-1/2 lbs. per 1000 square feet.)
----------------------------------	-----------------	---

	rodent worms	30-100 pounds (2-1/4 pounds per 1000 sq. ft.)
--	--------------	---

E. P. A. Reg. No. 279-2400

ACTIVE INGREDIENTS:

*Chlordane, Technical ----- 5.00%
Petroleum distillate ----- 2.25%

INERT INGREDIENTS: ----- 92.75%
----- 100.00%

*Equivalent to 3% Octachloro-4, 7-methanotetrahydroindane and 2% related compounds.

CAUTION

KEEP OUT OF REACH OF CHILDREN

Avoid inhalation. Avoid contamination of feed and foodstuffs.

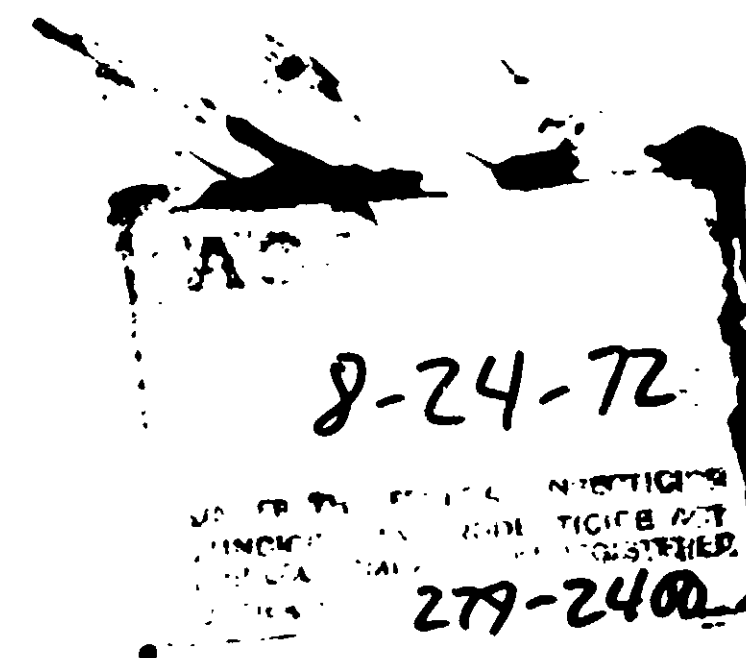

This product is poisonous to fish, birds, and other wildlife. Keep out of lakes, ponds, and streams. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on the label.

Do not apply when weather conditions favor drift from the areas treated. Do not apply when runoff is likely to occur.

If applied before seeding lawn or turf work into the top 3 to 6 inches of soil. On established lawns or turf apply just before heavy rainfall or work materials into soil by thorough sprinkling. Do not allow children and pets on treated areas until insecticide is washed into the soil and grass is completely dry. NOTE: Birds feeding on treated areas may be harmed. *Dosages indicated are for broadcast applications of this material. If it is desired to apply the material in bands centered on rows dosages may correspondingly be reduced. This material may be used in mixture with certain fertilizers for the control of certain soil insects. For additional information consult State Experiment Station personnel. Formulated products should be used only for those purposes for which chlordane fertilizer mixtures have been found suitable.

DISPOSAL WARNING

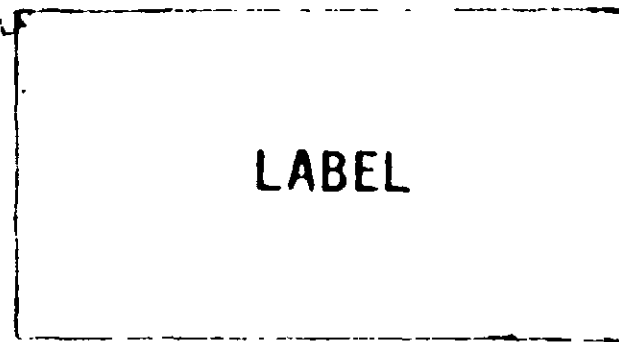

Do not reuse the container. Completely empty the contents and bury the unused chemical at least 18" deep in an isolated location away from water supplies. Burn the empty container completely. Exercise extreme caution and stay well away from smoke.
