

[337-3]

DIRECTIONS

To kill ROACHES, WATER-BUGS, SILVERFISH — thoroughly spray infested areas working spray into cracks and other hiding places. When possible spray the insects directly. Repeat when necessary.

To kill ANTS in buildings, follow directions for killing roaches, etc. Spray ants trails and areas around door sills and window frames where the pests enter premises. Repeat when necessary.

To kill FLIES, MOSQUITOES and GNATS — Close doors and windows of infested area. Fill infested area with mist using hand or electric atomizer. Allow sprayed area to remain closed for 10 minutes, then sweep up and destroy fallen insects. Repeat when necessary.

To kill MOTHS and CARPET BEETLES — Thoroughly spray clothing or carpets, particularly the seams or folds. Closets and storage containers should be filled with fine mist and remain closed for 30 minutes after spraying. Spray into any cracks or other hiding places. Repeat every month unless articles are stored in a moth-tight container.
