

20 MULE TEAM MAINTAIN^A

For retarding growth of woody plants on noncropland such as utility and highway rights of way, parks and similar areas.

IMPORTANT

Care should be taken to confine the use or application to the particular area intended to be treated. Keep MAINTAIN^A off treated area. Do not feed treated vegetation to livestock. Do not treat woody plants used for food production.

APPLY THIS PRODUCT ONLY AS SPECIFIED ON THIS LABEL

For use on: By Broadcast or Tree Trimming Treatments

MAINTAIN^A has long been used as an effective dressing on cut surfaces in tree trimming practices. MAINTAIN^A retards sprout growth on tree cut surfaces, while an asphalt emulsion and inhibits sprouts from the cut surface of the exposed area and also inhibits adventitious buds from developing near the treated cut. MAINTAIN^A has effectively retarded sprouting and/or epicormic branching in the following species:

American Elm	Yucca americana	East Oak	Quercus stellata
Black Birch/Aspen	Populus grandidentata	Red Oak	Quercus rubra
Black Locust	Rhus pseudoacacia	Salt Cedar	Tamarix gallica
Black Walnut	Juglans nigra	Silver Maple	Acer saccharinum
Blackberry	Acer negundo	Sycamore	Platanus spp.
Common Willow	Crataegus spp.	White Oak	Quercus nigra
Golden Willow	Salix lasioandra	Wild cherry	Prunus emarginata
Hackberry	Carya spp.	Yellow poplar	Cinodendron tulipifera
White Oak	Quercus virginiana		

DIRECTIONS

For broadcast use: Dilute MAINTAIN^A with 500 parts brush oil in a spray container including the nozzle and pump and apply to the bark and cut surfaces of trees. Wash container after use.

NOTICE

Results of many varying conditions affect the degree of application. Variations in seasonal weather, soil conditions, tree species, growth stage, tree size, tree health, tree age and other conditions may impair the effectiveness of the use of this product. In any event, complete growth inhibition is not guaranteed. This is a statement of the United States Extension Service, United Agricultural Experiment Station weed control specialists. For more information, contact your State Extension Service or Agricultural Experiment Station weed control specialists. No liability is assumed for any injury or damage to property resulting from the use of this product. No warranty is made or implied by the label or when used. The label contains the complete directions for use. A three-year limited warranty or expressly stated warranty. For more information, contact your State Extension Service and assume all risk of usage and handling of MAINTAIN^A and its related products with this label. For the manufacturer's name, address, telephone number, and other information, contact your State Extension Service. For more information, contact your State Extension Service. PAINI

FOR USE ONLY BY PROFESSIONAL TREE TRIMMING CREWS
A Tree Wound Dressing and Sprout Growth Retardant
For retarding growth of woody plants on noncropland such as utility
and highway rights of way, parks, and similar areas.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS**

CAUTION

Harmful if swallowed. Do not induce vomit-
ing. May cause irritation to eyes, nose, throat
and skin. Avoid contact with skin and clo-
thing. Wash hands, face, and clothing after
use.
Do not leave container where children or
animals may take internally.
Avoid contamination of food and feed

DIRECTIONS FOR USE

Use a regulation of Federal Law. Use this
product in a manner consistent with its
labeling.

READ ENTIRE LABEL. USE STRICTLY IN
ACCORDANCE WITH LABEL PRECAUTION-
ARY STATEMENTS AND DIRECTIONS.

COMPOSITION

Active Ingredients (by weight)	
Methyl 2-chloro-9-hydroxyfluorene-9-carboxylate	0.16
Methyl 9-hydroxyfluorene-9-carboxylate	0.64
Methyl 2,7-dichloro-9-hydroxyfluorene-9- carboxylate	3.03
INERT INGREDIENTS	99.75
Total	100.00

ACCEPTED
OCT 15 1987

KEEP OUT OF REACH OF CHILDREN
CAUTION

NET CONTENTS ONE U.S. GALLON

USE DIRECTIONS

Stir well before using. Do not thin. Apply with a stiff paint brush. Uniformly cover cut surface including the exposed cambium and about one inch of the bark around the cut surface.

Store about 40°F. close container after use.

CHEMIGATION: Do not apply this product through any type of irrigation system

INSTRUCTIONS

Asphalt has long been used as an effective dressing on cut surfaces in tree trimming practices. MAINTAIN A combines a growth inhibitor, Chlorflurenol, with an asphalt emulsion and inhibits sprouts from the cut cambium layer of the exposed area and also inhibits adventitious buds from developing near the treated cut.

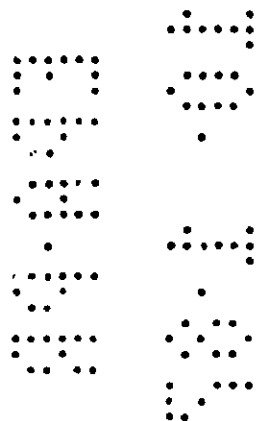

MAINTAIN A has effectively retarded sprouting and/or epicormic branching in the following species:

American elm	<i>Ulmus americana</i>
Bigtoothed aspen	<i>Populus grandidentata</i>
Black locust	<i>Robinia pseudacacia</i>
Black walnut	<i>Juglans nigra</i>
Box elder	<i>Acer negundo</i>
Decorative olive	<i>Oleaceae spp</i>
Golden willow	<i>Salix lasiandra</i>
Hickory	<i>Carya spp</i>
Live oak	<i>Quercus virginiana</i>
Post oak	<i>Quercus stellata</i>
Red oak	<i>Quercus rubra</i>
Salt cedar	<i>Tamarix gallica</i>
Silver maple	<i>Acer saccharinum</i>
Sycamore	<i>Platanus spp.</i>
Water oak	<i>Quercus nigra</i>
Wild cherry	<i>Prunus emarginata</i>
Yellow poplar	<i>Liriodendron tulipifera</i>

IMPORTANT

Care should be taken to confine the use or application to the particular area intended to be treated. Keep livestock off treated area. Do not feed treated vegetation to livestock. Do not reuse container. Destroy when empty. Apply this product only as specified on this label.

IMPORTANT NOTICE — Seller warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with the directions and instructions specified on the label under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product, contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
