DIRECTIONS

No. 444 Hilco-Blitz is a specially prepared insecticide. It is a 0.5% Vapona Insecticide-Synergized Pyrethrins Aerosol for use in Hospitals, Hotels, Motels, Restaurants, Dairy Plants, Beverage and Food Plants.

FLYING INSECTS: Flies, Mosquitoes, Gnats, Flying Moths, Wasps and other small Flying Insects.

Remove cap, hold can upright, point valve opening away from face. Press valve to spray. Spray upwards into four corners of room-10-15 seconds per 1,000 cu. ft. of room space. An average sized room would require 15-20 seconds of spraying.

Close windows for about 15 minutes after treatment. A thorough misting around patio, barbecue, picnic tables and other outdoor space when air is quiet will kill flies and mosquitoes. Temporarily reduces the annoyance by these pests.

Repeat as necessary.

Do not remain in treated areas. Ventilate the area after treatment is completed.

Use HILCO-BLITZ as a space spray in food processing plants only when plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using.

FOOD PROCESSING PLANTS. Do not use in edible products areas of food processing plants, restaurants or other areas where food is commercially

prepared or processed. Do not use in serving areas while food is exposed.

CRAWLING INSECTS: Roaches, Ants, Fleas, Ticks, Silverfish, Spiders, Centipedes and Millipedes. Spray cracks of woodwork, walls, floors, around doors and window frames, baseboards, behind shelving of storage areas, and other places these insects may congregate, walk or hide. Spray ant trails around doors and window sills. Spray animal sleeping quarters freely, as well as floors, baseboards, floor coverings, and wall cracks. Spray animal bedding. Repeat as necessary.

CAUTION: Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing of spray mist. Wash thoroughly with soap and water after handling and before eating or smoking. Do not contaminate utensils, feed, water or foodstuffs. Keep out of the reach of children. If swallowed, induce vomiting immediately and get medical attention. Atropine is antidotal.

DO NOT SPRAY DIRECTLY ON THE SKIN OR ON ANIMALS Remove birds and pets and cover fish bowls and aquaria before spraying room. An average sized room would require 15 to 20 seconds of spraying.

WARNING FLAMMABLE CONTENTS UNDER PRESSURE

High temperature may burst the container. Do not expose to direct sunlight, radiators, stoves, hot water, or other sources of heat. Never puncture container or throw into fires or incinerators.

CAUTION KEEP OUT OF REACH OF CHILDREN
