

Glycerine

~~This disinfectant has been adopted by numerous physicians and surgeons and by many leading hospitals in the U. S. because of its efficacy in dilute solutions.~~

~~Be sure all surfaces are thoroughly wetted with the disinfecting solution to secure adequate germicidal effect.~~

DIRECTIONS FOR USE

Hospitals: For disinfecting surgical instruments, use a 4% solution or approximately six ounces in each gallon of water. Instruments should be freed of all adhering blood and serous exudate prior to immersion in the disinfecting solution.

For Disinfecting Bed Utensils, Etc.: Use same strength solution.

~~**As an Antiseptic Dressing for Wounds:** For sores, skin abrasions, wounds, etc., use a 4% solution, applying same to the wound with gauze or absorbent cotton saturated in the solution.~~

POISON

FOR EXTERNAL USE ONLY

POISONOUS IF TAKEN INTERNALLY

Internal Antidote—Give milk, white of raw eggs, mucilage or cornstarch paste, and follow with an emetic such as a tablespoonful of mustard in a tumbler of warm water. ~~Avoid contact with~~

10 pt

WARNING: KEEP OUT OF REACH OF CHILDREN
May be fatal if swallowed or absorbed through the skin. May produce severe burns. Do not get in eyes, on skin or on clothing. Avoid breathing spray mist. Wash thoroughly after handling.

COAL TAR DISINFECTANT

Phenol Coefficient at least **6** by ^{A.O.A.C.}~~Edet.~~ Method

ACTIVE INGREDIENTS	90%	INERT INGREDIENT	10%
Coal Tar Neutral Oils		Water	
Phenol			
Soap			
Coal Tar Phenols			

DIRECTIONS FOR USE

Use one-half cup of Coal Tar Disinfectant to each 10 quart pail of water taken for mopping, scrubbing, sprinkling or cleaning purposes.

GARBAGE: To deodorize sprinkle with Disinfectant Solution, using one-half cup to a gallon of water. Rinse the empty can with some of the solution and leave the wash in the can. Coal Tar Disinfectant helps to prevent the breeding of flies in the container.

FLOORS: Use one-half cup of Coal Tar Disinfectant to a 10 quart pail of water when scrubbing or mopping.

KITCHEN SINKS: Scrub above and beneath sink, along the sides and edges of the sink, using a solution of one-half cup of Coal Tar Disinfectant to a 10 quart pail of water, and flush pipes with the remainder of the fluid.

WATER CLOSETS AND URINALS: Wash the closet and urinal bowls regularly with Coal Tar Disinfectant solution in the proportion of one-half cup to a gallon of water. Scrub the floors and seat frequently with Coal Tar Disinfectant Solution

GENERAL DISINFECTION

Use the following procedure in treating all premises:

Clean and remove all filth and dirt from the premises and then use a solution of 1 part Disinfectant to 120 parts of water, for effectively disinfecting spittoons, sinks and garbage cans. Use similar solution as an aid in disinfecting live stock premises.

FOR ANIMAL QUARTERS

Keep the barns, kennels, pens and sties thoroughly clean by scrubbing and spraying freely with a solution of Coal Tar Disinfectant in the proportion of one cupful to a 10 quart pail of water. Scrub all floors with this solution to help control contamination.

WARNING: KEEP OUT OF REACH OF CHILDREN. May produce severe burns. May be fatal if swallowed or absorbed through skin. If accidentally swallowed, give white of egg, mucilage, starch paste, etc., as an antidote. Use one tablespoonful of mustard in glass of water as an emetic. Do not get in eyes, on skin or on cloth.
