Subject: Amendment of label to delete residential greenhouse use
TyGRO mite fogger
EPA Registration No. 499-567
Decision Number: 491465

Dear Ms. Garwood,

The labeling referred to above submitted in connection with the Federal Insecticide, Fungicide and Rodenticide Act, as amended is **acceptable**. Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e).

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. **The next label printing of this product must use this labeling unless subsequent changes have been approved.**

You must submit one (1) copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3

If you have any questions regarding this label, please contact Autumn Metzger at (703) 305-5314.

Sincerely,

A handwritten signature in black ink, appearing to read "M F Laws".

Meredith F. Laws
Chief, Insecticide-Rodenticide Branch
Registration Division

PRECAUTIONARY STATEMENTS

PHYSICAL OR CHEMICAL HAZARDS

Extremely Flammable. Contents under pressure. Keep away from fire, sparks and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

This product contains a highly flammable ingredient. It may cause a fire or explosion if not used properly. Follow the "Directions for Use" on this label very carefully.

Highly Flammable Ingredient
Ingredienta Altamente Inflamable

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

READ ENTIRE LABEL BEFORE EACH USE.

FOR USE INDOORS ON: Bedding Plants, Cut Flowers, Foliage, Hanging Baskets, Ornamentals, Potted Flowering Plants

ALSO ON THESE GROWING CROPS:

Fruit: Pome Fruit (Apple and Pear), Plum, Stone Fruit (except plum)

Mint: Peppermint, Spearmint

Vegetables: Cucumber, Eggplant, Pepper, Pumpkin, Squash and Tomato

USE RESTRICTIONS

- Apply this product only as specified on this label.
- **This product does not control bed bugs.**
- Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Do not remain in treated area. Exit area immediately and remain outside the treated area for at least 2 hr, until aerosols, vapors and/or mists have dispersed.
- Do not apply more than 1 time/day.

ACCEPTED

JUN 05 2014

Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended, for the
pesticide registered under:

EPA. Reg. No: 499-567

APPLICATION INSTRUCTIONS
SHAKE WELL BEFORE USING

TO USE THIS PRODUCT CORRECTLY

Do not use more than 1 fogger per room. Do not use in small, enclosed spaces such as closets, cabinets or under counters or tables. Use of a fogger in an enclosed space may cause the product to explode, resulting in injury to people or damage to property. Do not use in a room 5 ft x 5 ft or smaller; instead, allow fog to enter from other rooms.

Shut off exhaust fans and close all windows, doors and ventilators. Turn off all ignition sources such as pilot lights (shut off gas valves), other open flames or running electrical appliances that cycle off and on (i.e., refrigerator, thermostats, etc.).

Do not place cans within 10 ft of running electrical appliances that cycle on and off. Call your gas utility or management company if you need assistance with your pilot lights.

BEFORE YOU FOG

Remove or cover all exposed food, dishes, utensils, food processing equipment and food preparation surfaces. Remove pets and birds, cover and turn off fish aquariums prior to application. Turn off air flow systems in aquariums. Prepare a 3 ft plant free zone in which to place the can. Elevate can above the top of plants; common practice is to place the can on a stool or overturned pot. Cover the elevated surface and the 3 ft plant free zone with several layers of newspaper. To treat hanging baskets, an empty basket may be used to hold the can and elevate it to the hanging basket level. Low volume horizontal air flow may help optimize performance.

TO START FOGGING

Apply during early evening when foliage is dry and temperature is between 60 – 80°F. Thorough coverage is achieved by the normal air movement within your greenhouse. The chemical will move around and throughout the plant foliage due to the small particle size produced and the normal ebb and flow movement of the air. Both top and bottom of the plant foliage is covered with particles.

To activate cans: Tilt the can away from face (container sprays straight up) and pressing the tab down in locked position. The entire contents will release automatically.

Vacate the treated greenhouse, garden center or other structure immediately. Do not reenter for 2 hr. Fill out and place hang-tag on the door leading to the treated area to alert others with access to the treated area not to enter for 2 hr.

AIRING OUT

Wait 2 hr after application (until aerosols and vapors have dispersed), then thoroughly ventilate, either mechanically (using air conditioner and/or fans) or with natural airflow by opening windows, vents and doors before reentering and remaining indoors. If an odor is still detected, additional ventilation is required.

PLANT SAFETY INFORMATION

This product has been tested on a wide variety of plants and in our opinion has demonstrated excellent plant safety. However, not all varieties or strains of the listed plants have been tested. Unintentional consequences such as crop injury or ineffectiveness may result because of certain environmental or growing conditions, manner of use or application, and insect resistance. Therefore, prior to a full scale application, run a small scale test by treating a variety of sample plants, flowers, foliage or ornamentals of concern, and observe for plant damage and performance.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store in a cool, dry area away from heat or open flame.

CONTAINER HANDLING & DISPOSAL: Do not puncture or incinerate! **If Empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

Contains no CFCs or other ozone depleting substances.
Federal regulations prohibit CFC propellants in aerosols.

CONDITIONS OF SALE AND WARRANTY

Follow the **Directions for Use**. It is impossible to eliminate all risks inherently associated with use of this product, and therefore all such risk shall be assumed by the Buyer. Whitmire warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Directions for Use**, subject to the inherent risks, referred to above. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW: (A) WHITMIRE MAKES NO OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF FITNESS FOR PARTICULAR PURPOSE OR MERCHANTABILITY, (B) BUYER'S EXCLUSIVE REMEDY AND WHITMIRE'S AND SELLER'S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT, AND (C) WHITMIRE AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, INCIDENTAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. Whitmire and the Seller offer this product, and the Buyer accepts it, subject to these **Conditions of Sale and Warranty** which may be varied only by agreement in writing signed by a duly authorized representative of Whitmire.
