4. Typed Name <b>Kim Davis, CC, APC</b>	5. Date <b>January 17, 2002</b>	

# TAT<sup>®</sup> WASP & HORNET KILLER

**KILLS: Wasps and Hornets on contact!**  
**KILLS: With residual action as they nest!**  
**KILLS: Larvae and Pupae in nests!**

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product may be used both indoors (attics and other places where nests are built and where food or feed are not exposed) and outdoors on hornet and wasp nests. Do not directly spray light colored asbestos shingle roofs as dark stains may occur.

To Kill Wasps and Hornets: Apply this product in the early morning or late evening when air temperature is cooler, most insects are in the nest and little activity is observed around the nest opening. Spray only if it is not windy. Stand a safe distance from the nest, not directly beneath it. Hold container upright at arms' length, point the actuator at nest and spray the opening of the nest. Then saturate rest of nest with spray. Treated insects will fall out of the nest and die. Any insects returning to the treated nest will also be killed. Do not attempt to spray insects while in flight. Wait 48 hours before removing the nest.

**STORAGE:** Store in a cool, dry (preferably locked) storage area inaccessible to children and pets and away from heat or open flame.  
**DISPOSAL:** Do not puncture or incinerate! If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

## PRECAUTIONARY STATEMENTS Hazards to Humans & Domestic Animals

**CAUTION:** Harmful if swallowed. Avoid inhalation of vapors. Avoid contact with skin and eyes. Do not use in commercial food processing, preparation, serving or storage areas. When used in homes cover all food processing surfaces and utensils during treatment or thoroughly wash before use. Cover exposed food. When used indoors remove pets and birds and cover fish aquariums before spraying.

### First Aid

**If Swallowed:** Immediately call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

**If on Skin or Clothing:** Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

**Note to Physician:** Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

### Physical or Chemical Hazards

Flammable. Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Incineration may cause explosion.

### Environmental Hazards

Do not apply directly to water. Do not contaminate water by disposal of wastes.
