DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For Use in Apartments, Homes, Attics, Basements, Household Storage Areas, Garages, Etc.

Use as a spot treatment to control cockroaches, waterbugs, silverfish, ticks, fleas and other insects listed below.

Apply this product to localized areas where pests are found or may occur. Spray surfaces until wet.

TO KILL ANTS, ROACHES, CRICKETS, SILVERFISH, SOWBUGS, SPIDERS and EARWIGS: Spray into cracks, crevices, around baseboards and other places where these insects hide. Apply behind and beneath cabinets, refrigerators, sinks, stoves, and in and around waste containers. Contact directly as many insects as possible. For ants, spray trails and places where ants enter premises. Repeat as necessary for control.

TO KILL CARPET BEETLES and DERMESTIDS: Spray along baseboards, edges or carpeting, under carpets and rugs, under furniture, in closets, on shelving and in other places of harbourage. Repeat as necessary.

TO KILL BROWN DOG TICKS and FLEAS: Remove and destroy old bedding. Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks and local areas of floors. Repeat as necessary. Fresh bedding should be placed in animal quarters after spray has dried. Do not spray animals. To control the source of your flea infestation, treat your pets with a product registered for flea and tick control on animals.

FLIES and MOSQUITOES: Use only out-of-doors as an aid in reducing annoyance from these insects. Spray outside surfaces of window and door frames as well as other areas where these pests may enter the home. Also, spray dark corners and localized resting areas (such as under eaves) or porches, patios and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when necessary.

TO KILL BROWN DOG TICKS and FLEAS: Thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters; nearby cracks and crevices; along and behind baseboards; window and door frames and localized areas of floor and floor coverings where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment. Do not spray pets with this product. Pets should be treated with a product registered for flea and tick control on animals in conjunction with this treatment.

FOR CRACK AND CREVICE: To Kill Ants, Cockroaches, Crickets, Silverfish, Sowbugs, Spiders, Brown Dog Ticks, Fleas, Earwigs and Carpet Beetles: Apply spray in small amounts directly into cracks and crevices.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

STORAGE: Store in a cool dry area (preferably locked) inaccessible to children and pets and away from heat or open flame. **DISPOSAL:** Replace cap wrap container in newspaper and discard in trash. Do not incinerate or puncture.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: May be harmful if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist and provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. In case of contact immediately flush skin and eyes with plenty of water. Wash thoroughly with soap and water after handling. If poisoning occurs, get prompt medical aid. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

In commercial food handling facilities, cover or remove any food or food processing equipment during application. Do not apply while food processing is underway. Do not apply directly to food or foodstuffs. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before reuse. Remove pets, birds and cover fish aquariums before spraying.

Statement of Practical Treatment

If In Eyes: Flush with plenty of water. Get medical attention if irritation persists. **If On Skin or Clothing:** Remove contaminated clothing. Wash skin with soap and warm water. Get medical attention if irritation persists. **If Inhaled:** Remove to fresh air if effects occur, and call a physician. **If Swallowed:** Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Call a physician. **NOTE TO PHYSICIAN:** Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote.

Physical or Chemical Hazards

Flammable. Contents under pressure. Do not use or store near heat or open flames. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

Environmental Hazards

Do not contaminate water when disposing of equipment washwaters.
