Greeley, CO 80631-9375

APR 4 2007

SUBJECT: Application for Pesticide Notification – General Label Changes/Warranty
EPA Reg. No. 506-175
Application Dated February 23, 2007

Dear Ms. Davis:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the product above. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the actions requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please me directly at 703-305-6249 or Terri Stowe of my staff at 703-305-6117.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Arrington".

Explanation: Use additional page(s) if necessary. (For Section I and Section II.)

Submit label revision notification per PR Notice 98-10 and final printed labeling per the EPA letter.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR § 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to the EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR § 152.46 this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

TAT[®] ROACH BAIT V
KILLS: Roaches, Waterbugs, Palmetto Bugs

PRECAUTIONARY STATEMENTS
Hazards to Humans & Domestic Animals

CAUTION: Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wash thoroughly with soap and water after handling.

First Aid

If on Skin or Clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Immediately rinse skin with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [You may also contact 1-888-xxx-xxxx [(the international poison center)] for emergency medical treatment information.]	
Note to Physician: Fenitrothion (Sumithion [®]) is an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered but only in conjunction with atropine.	

{Note: The First Aid statements' grid format will be used if market label space permits; otherwise a paragraph format will be used.}

Environmental Hazards

This product is toxic to birds and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwater or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[Refer to card [box] for complete Directions for Use]

[Storage and Disposal]

Storage: Store in a cool dry (preferably locked) storage area inaccessible to children and pets. Keep pesticide in original containers. **Disposal: If empty:** Do not reuse this container; place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

READ ENTIRE LABEL BEFORE USING.

USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.
READ INSTRUCTIONS BEFORE PRESSING IN SEMI-PERFORATED HOLES

On the sides of the can you will find several indented sections. Simply apply pressure with a key until they open (see illustration). Place the bait trays [traps] where you have noticed the infestation of roaches. TAT Roach Bait V will take care of the rest. For best results, use 4-6 bait trays [traps] per 100 square feet of surface area to be treated. More bait trays [traps] may be used if infestation is great. If children or domestic animals may access treatment areas, place trays [traps] in areas inaccessible to them.

EFFECTIVE - CLEAN - ECONOMICAL

For continuous good results check regularly and replace every four weeks or as needed. Place bait trays [traps] where roaches are numerous - on shelves, in drawers, near baseboards, under sinks, stoves and refrigerators, in bathrooms, etc. As roaches are night feeders, they enter bait tray [trap] when it's dark. Death occurs soon after feeding. They leave bait tray [trap], return to hiding places and die.

TAT[®] Roach Bait V

KILLS: Roaches, Waterbugs, Palmetto Bugs

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wash thoroughly with soap and water after handling.

FIRST AID

If on Skin or Clothing: Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Note to Physician: Fenitrothion (Sumithion[®]) is an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidote. 2-PAM is also antidote and may be administered but only in conjunction with atropine.

ENVIRONMENTAL HAZARDS

This product is toxic to birds and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water by disposing of equipment washwater or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL BEFORE USING. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS. READ INSTRUCTIONS BEFORE PRESSING IN SEMI-PERFORATED HOLES.

On the sides of the can you will find several indented sections. Simply apply pressure with a key until they open (see illustration). Place the bait trays where you have noticed infestation of roaches.

TAT Roach Bait V will take care of the rest. For best results, use 4-6 bait trays per 100 square feet of surface area to be treated.

More bait trays may be needed if infestation is great. If children or domestic animals may access treatment areas, place trays in areas inaccessible to them.

Effective-Clean-Economical

For continuous good results check regularly and replace every four weeks or as needed. Place bait trays where roaches are numerous- on shelves, in drawers, near baseboards, under sinks, stoves and refrigerators, in bathrooms, etc. As roaches are night feeders, they enter bait tray when it's dark. Death occurs soon after feeding. They leave bait tray, return to hiding places and die.

STORAGE & DISPOSAL

STORAGE: Store in a cool, dry (preferably locked) storage area inaccessible to children and pets. Keep pesticide in original containers.

DISPOSAL: If empty: Do not reuse this container; place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Notice: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.
