

Technical Grade

2,4,5-T ISOPROPYL ESTER

4-28-72
524-47

ACTIVE INGREDIENT:

Isopropyl Ester of
2,4,5-Trichlorophenoxyacetic Acid 97.8%

INERT INGREDIENTS: 2.2%

Equivalent to 2,4,5-T acid 84 percent.

Keep out of reach of children.

CAUTION!
MAY CAUSE SKIN IRRITATION.

Do not get in eyes.

Avoid contact with skin and clothing.

In case of contact, flush eyes with plenty of water for at least 15 minutes and get medical attention; wash skin with plenty of soap and water.

Store away from foodstuffs or articles subject to odor permeation.

FOR USE BY MANUFACTURERS IN PREPARATION OF PESTICIDES.

SOLID AT ROOM TEMPERATURE.

Warm to 100° F. and redissolve before using.

ATTENTION: Before using consult the State Agricultural Extension Service or Experiment Station concerning specific usage, dosages and methods of application. Spray or dust must never be allowed to reach flowers, vegetables, shrubs and susceptible crop plants. Bent grass and clovers may be damaged or killed. EVEN SMALL AMOUNTS OF DRIFT ARE HIGHLY INJURIOUS. DO NOT SPRAY OR DUST IN WIND. Coarse sprays are less likely to drift. Vapors may injure susceptible plants in the immediate vicinity. Formulations of 2,4,5-T must not be applied by airplane in the vicinity of growing susceptible crops. Do not store near fertilizers, seeds, insecticides and fungicides. Sprayers or other equipment used for 2,4,5-T application should never be used for other agricultural chemicals. Keep concentrate away from domestic animals. Do not contaminate water used for irrigation, domestic or spray purposes.

2,4,5-T ACID

4-28-72
524-48

ACTIVE INGREDIENT:
2,4,5-Trichloro-p-benzyloxy-benzoic Acid 98.0%
INERT INGREDIENTS: 2.0

Keep out of reach of children.

WARNING!

IRRITATING TO EYES, NOSE
AND THROAT.

Do not get in eyes.
Avoid breathing dust.
Avoid contact with skin or clothing.
In case of contact with skin or eyes,
flush with plenty of water for at
least 15 minutes; for eyes, get
medical attention.

Store away from fire/stuffs. Do not use if container
is under perforation.

FOR USE ONLY IN THE MANUFACTURE OF PESTICIDES.

MONSANTO COMPANY, ST. LOUIS, MISSOURI, U.S.A.

ATTENTION! Refer to and consult the State Agricultural Extension Service or Experiment Station concerning safe usage, dosages and methods of application. Spray or dust must never be allowed to reach flowers, vegetables, shrubs and susceptible crop plants. Bent grass and clovers may be damaged or killed. EVEN SMALL AMOUNTS OF DRIFT ARE HIGHLY INJUROUS. DO NOT SPRAY OR DUST IN WIND. Coarse sprays are less likely to drift. Instances of partial or complete crop losses have occurred caused by the drift of dusts or sprays. Aerial dusting is the prime offender and active traces of 2,4,5-T have reportedly been found as far as 50 miles from the point of dusting. Vapors may injure susceptible plants at the same rate as dust. Do not store near fertilizer, feed, manure, food and feedstuffs. Sprayers and other equipment used for 2,4,5-T application should never be used for other agricultural chemicals. Keep concentrate away from domestic animals. Do not contaminate water, food, or feed by storage or disposal. Do not use for any purpose.
