insect stop

controls
ants, mosquitoes
flies, centipedes
hornets, wasps
gnats, flying
moths and
crickets

SHAKE WELL. Aim valve away from face and angled slightly downward.

CONTROL IN AIR. For best results, use when air is calm. In a breeze, stand at one side and allow spray to drift away from user, over area to be protected. Repeat as needed for mosquitoes, flies, hornets, wasps, gnats, flying moths.

When treating bushes or ground covers for pests such as mosquitoes, stand 4-6 feet away.

CONTROL ON SURFACE. For ants, centipedes, crickets, apply thoroughly to infested surfaces, including ant hills and trails, also cracks and crevices where pests might hide. Spray legs of outdoor furniture, too.

Occasionally spray house foundation to help repel invading insects.

CAUTION: Plan to treat 15-20 minutes before using area. Cover any exposed food. Avoid inhalation and contact with eyes or skin; wash after using. Do not smoke while using. Avoid contamination of water used for irrigational or domestic purposes. Not for use on pets or food crops.

Contents under pressure. Do not use near fire or open flame. Store in cool place (not over 120° F) but protect against freezing. Never throw in fire or puncture container.

Active ingredients: pyrethrins20%
Piperonyl butoxide, technical (consists of 0.8% (butylcarbityl) (6-propylpiperonyl) ether and 0.2% related compounds)	1.00%
Methoxychlor, technical (equivalent to 0.88% 2,2-bis (p-methoxyphenyl)-1,1, 1-trichloroethane and 0.12% other isomers and reaction products)	1.00%
2-Hydroxyethyl-n-octyl sulfide95%
Related compounds05%
Petroleum distillate92%
Inert ingredients	95.88%
Total	100.00%
