 U.S. ENVIRONMENTAL PROTECTION AGENCY  
 Office of Pesticide Programs  
 Registration Division (H7505C)  
 401 "M" St., S.W.  
 Washington, D.C. 20460

EPA Reg. Number:  
 538-249

Date of Issuance:  
 29 JUL 1993

NOTICE OF PESTICIDE:  
 Registration  
 Reregistration

(under FIFRA, as amended)

Term of Issuance:  
 Conditional

Name of Pesticide Product:  
 Moss Eraser

Name and Address of Registrant (include ZIP Code):

The O. M. Scott & Sons Company  
 14111 Scottslawn Road  
 Marysville, Ohio 43031

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

- a. Revise the EPA Registration Number to read, "EPA Reg. No. 538-249".
- b. Revise the first sentence in the Environmental Hazard statement to read, "Do not apply directly to water."
- c. Add the following reentry statement, "Do not allow persons or pets on treated areas until sprays have dried or dusts have settled."

KEEP OUT OF THE REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: CAUTION: Harmful if swallowed. Avoid contact with skin, eyes, or clothing. In case of contact immediately flush eyes or skin with plenty of water.

Environmental Hazards: For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

STORAGE: Store in a clean, dry place. Reseal opened bag by folding top down and securing.

PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse bag. Discard bag in trash.

**Moss-Eraser™**  
**Moss Control Granules**

Spot treatment for moss control in lawns

**What to expect**

Discoloration and blackening of moss within a few days, with full effect of this treatment in 3 to 4 weeks.

If lawn remains thin, a reinfestation of moss is likely. To maintain a good barrier against moss, regular fertilization of all turfgrasses and selective pruning of tree branches in shaded areas are recommended to promote growth of dense turf.

A temporary darkened appearance of the lawn for up to 2 weeks may result after application of this product.

**How and when to apply**

Apply during winter or spring (December through April) when moss is actively growing.

**Directions for use**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**TO CONTROL MOSS IN LAWNS:**

- It is best to apply when the lawn is moist and tall grass has been mowed to expose low-growing moss. Sprinkle granules over mossy areas in lawn. Use diagram as a guide for application rate.
- Vigorous raking of the moss-infected area prior to treatment will enhance moss control.
- Do not apply to a newly seeded or sodded lawn until it has been mowed four times.
- Keep product off sidewalks, patios, driveways, etc. Brush particles off concrete, stone, clothing, or shoes immediately to prevent staining. **This product will stain.** (Iron stains on concrete can be effectively removed with products containing phosphoric acid, such as Naval Jelly. Products containing oxalic acid can effectively remove iron stains from clothing. Follow package directions to obtain best results.)

- Allow one week between the application of this product and other control products. (This guideline can be relaxed where severe insect or disease attack requires immediate treatment.)

**TO CONTROL MOSS AROUND FLOWERS AND ORNAMENTAL SHRUBS:**

- Apply anytime moss is actively growing. Sprinkle granules over mossy areas. (See diagram for application rate.)
- Wait several days and carefully rake out dead moss.
- **IMPORTANT:** Moss-Eraser™ will burn foliage if applied directly to plants. If contact occurs, wash material off plants immediately.
