SIREN

INDOOR SPACE AND SURFACE SPRAY

CONTAINS Synergized Pyrethrins—Lemon Fragrance

Kills Flies, Mosquitoes, Gnats, Roaches, Waterbugs, Silverfish, Crickets,
Spiders, Ants, Fleas, Brown Dog Ticks, Bedbugs and Carpet Beetles.

Active Ingredients: 90%
Petroleum distillate; N-octyl bicycloheptene dicarboximide; Technical Piperonyl
butoxide*; Pyrethrins
Inert Ingredient: 10%
Dipentene

*Consists of (butylcarbityl) (δ-propylpiperonyl) ether and related compounds.

DIRECTIONS

AS A SPACE SPRAY FOR FLYING INSECTS: For all indoor areas including warehouses, food processing plants, restaurants, kitchens, bottling plants, etc. For flies, mosquitoes and gnats. Use 2 ounces as a finely divided floating spray or fog for each 1,000 cubic feet of space. For best results in large areas, disperse with an electric sprayer. Open all cupboards, closets and lockers. The mist should be sprayed so that it will be forced into crevices where the insects hide. Do not remain in treated areas and ventilate the area after treatment is completed. Leave room closed for at least 10 minutes after spraying. Repeat application as often as necessary.

AS A DIRECTIONAL SPRAY FOR CRAWLING INSECTS: For roaches, waterbugs, silverfish, crickets, and spiders. Use a coarse spray that will not float in the air. Direct the spray to infested surfaces of cupboards, lockers and other places where insects hide. Wet thoroughly shelving, baseboards, woodwork and areas around drain pipes to insure a heavy deposit. Work spray into cracks and other hiding places. Wherever possible spray insects directly. Insects hit by the spray will be killed immediately. Repeat when necessary.

FOR ANTS: Spray shelves, cabinets, storage areas, ant trails, nests, baseboards, window sills, door frames and other places of entry. Repeat when necessary.

FOR FLEAS AND BROWN DOG TICKS IN BUILDINGS: Spray lower wall portions, baseboards, rugs, carpets and floors of infested areas. Animal quarters, kennels and bedding should also be sprayed. Repeat when necessary.

FOR BEDBUGS: Spray beds and mattresses, including all tufts, seams and folds, springs and frame. Treat walls, woodwork, floors and hiding places. Air bedding before using. Repeat when necessary.

FOR CARPET BEETLES: Spray infested areas of carpets, local areas of floors, baseboards, cracks and under carpets where insects may be found. Repeat when necessary.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Although flash point of this product is over 140° F., certain precautions should be taken when spraying a dense fog indoors. All fires, flames, pilot lights or other direct sources of ignition should be shut off. Not more than one gallon of product should be used to treat 50,000 cubic feet of space, with proportional quantities for smaller or larger volumes. Do not smoke while spraying. Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using. Do not use when food processing plants are in operation.

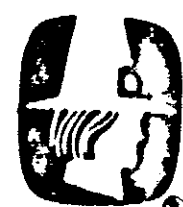

Do not re-use empty container. Wash thoroughly with water and detergent. Discard in a safe place.
