COAL-TAR DISINFECTANT DEODORANT CLEANER

Phenol Coefficient 8 by the A. O. A. C. Method

Active Ingredients:

Coal Tar Hydrocarbons
Coal Tar Acids
Soap

Inert Ingredients:

Water.....10%

MUST BE DILUTED

For general disinfecting and cleaning, dilute 1 part of disinfectant with 160 parts lukewarm water, which is equivalent to one tablespoonful to 4 pints water.

For sickroom or utensils such as bedpans, urinals, etc., wash with a solution of 1 tablespoonful of disinfectant to 1 quart water.

UNIFORM QUALITY

This disinfectant is manufactured to exact and rigid requirements and can be used around homes, public buildings and institutions.

Does not deteriorate with age and does not separate from exposure to extremes in temperature.

Coal Tar Disinfectant cleans, deodorizes and disinfects all in one operation.

Each batch is tested and is uniform.

WARNING

KEEP OUT OF REACH OF CHILDREN

DILUTE BEFORE USING. NEVER USE FULL STRENGTH.

May be fatal if swallowed or absorbed through skin. May produce severe burns. Do not get in eyes, on skin, or on clothing. Avoid breathing spray mist. Wash thoroughly after handling.
