DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This LIVESTOCK SPRAY is a dual-purpose formulation designed to protect animals, including dairy and beef cattle, from attacks of biting flies in the barn and on pasture, as well as to function as an effective space spray for quick knockdown and kill of flies in the barn.

Animal Spray: To protect animals against the attacks of stable flies, horn flies, mosquitoes and gnats, apply just enough to wet the ends of the hairs but not enough to soak the hide. One to two ounces is enough to treat an adult cow. Apply once daily, preferably in the morning, for protection during the day. Repeat at daily intervals, or as necessary for continued protection. Do not apply in excess of two fluid ounces per animal per day.

Space Spray for Barn Fly Control: To attain quick knockdown and kill of flies, gnats and mosquitoes in enclosed spaces, spray toward the ceiling and corners until the space is filled with a light mist. Apply at the rate of one quart 0.5% solution per 1000 square feet. Do not contaminate water, feed or foodstuffs, milk or milking utensils. Do not use this solution in areas where animals have received direct application within 8 hours. For best results, close all windows and doors prior to spraying and keep them closed for 10 to 15 minutes after spraying.

Baird's Dairy Cattle Spray

ACTIVE INGREDIENTS 100%

Pyrethrins05%
Technical Piperonyl Butoxide*10%
N-octylbicycloheptene dicarboximide15%
D-propyl isochinchomeronate20%
2,2-Dichlorovinyl dimethyl phosphate465%
Related Compounds035%
Petroleum Distillate	99.0%

*Consists of .08% (butylcarbityl)(6-propylpiperonyl) ether and .02% other related compounds.

For Repellent Action For Killing Action
DDVP Plus PYRETHRINS

KEEP OUT OF REACH OF CHILDREN

CAUTION

See Side Panel For Complete Caution Statement

STATEMENT OF PRACTICAL TREATMENT

- If swallowed** - Call a physician or Poison Control Center immediately. Gastric lavage is indicated if material was taken internally. **DO NOT INDUCE VOMITING;** vomiting may cause aspiration pneumonia.
- If inhaled** - Remove victim to fresh air. Apply artificial respiration if indicated.
- If on skin** - Remove contaminated clothing and wash affected areas with soap and water.
- If in eyes** - Flush eyes with plenty of water. Get medical attention if irritation persists.

Note to Physician: Atropine is antidotal.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Disposal. Pesticide, spray mixture or rinsate that cannot be used according to label instructions must be disposed of according to Federal, State or local procedures under the Resource Conservation and Recovery Act.

Metal. Triple rinse (or equivalent) and offer for recycling or reconditioning, or dispose of in a sanitary landfill, or by other approved State and local procedures.

PHYSICAL OR CHEMICAL HAZARDS

Keep away from heat and open flame.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

CAUTION: Harmful if swallowed, inhaled or absorbed through skin. Do not apply to humans. Avoid prolonged or repeated inhalation of mist and contact with skin. Wash thoroughly with soap water after handling and before eating or smoking. Do not contaminate food, water or foodstuffs. Keep out of reach of children.

WARRANTY: Seller makes no warranty, express or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

Keep away from heat and open flame.

- c. In the statement of active ingredients revise the second ingredient to "Piperonyl Butoxide, Technical."
- d. Revise the note to physician to "If symptoms of cholinesterase inhibition are present, atropine is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine."

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
