DIRECTIONS

This is a selective herbicide used for the control of susceptible weeds in small grains and corn, and for control of winter-killed perennials and woody plants in non-crop lands. For best results, apply when soil and climatic conditions are conducive for rapid weed growth.

WEEDS CONTROLLED: Mustard, Franchweed, Arrowweed, Cockspur, Dandelion, ~~Common Knotweed~~, Hedge Bindweed, Pigweed, Ragweed, Wild Buckhorn, Plantain and other broadleaf weeds.

WHEAT, BARLEY, RYE - Use 1/2 pint of this herbicide per acre in sufficient water to obtain good coverage. It is recommended that the lower dosage be used for more susceptible weeds such as common mustard, and the higher dosage may be necessary for the control of more resistant weeds such as Cockspur. Make application only between the shooting and joint stages.

NOTICE Do not forage or graze on treated grain fields within two (2) weeks after treatment. Do not feed treated straw to livestock.

CORN - Use 1/2 to 1 pt. of this herbicide per acre in sufficient water to obtain good coverage. Make application when a majority of majority of weeds but before weeds have emerged the corn. Post-emergence application of this herbicide should be made after emergence but before tasseling. Do not apply from tasseling to dough stage. Use this herbicide when corn is over 8 inches high. Strains and hybrids may vary in their tolerance to 2,4-D and paraquat. Tests should be conducted on any ester formulation.

PERENNIALS AND WOODY PLANTS - Use 1/2 pint of this herbicide per acre in sufficient water to obtain good coverage. In the control of plants such as oaks and peach, it is necessary to have a dormant tree. Control woody and woody plants in non-crop lands. For best results, apply when weeds are growing rapidly.

NET CONTENTS 30 GALLONS

AGSCO 300

AERO

HERBICIDE

ACTIVE INGREDIENTS:

- * Isopropyl ester of 2,4-Dichlorophenoxyacetic acid
- * Butyl ester of 2,4-Dichlorophenoxyacetic acid

67.7%
32.3%
100%

2,4-Dichlorophenoxyacetic acid 66.4%
Butyl ester of 2,4-Dichlorophenoxyacetic acid 33.6%

CAUTION

KEEP OUT OF REACH OF CHILDREN

(Additional precautionary statements on inside of can)

Harmful if swallowed. Do not get in eyes. Avoid contact with skin or clothing. In case of contact with weed killer, flush with plenty of water for fifteen (15) minutes. In case of eye contact, get medical attention. Remove and wash contaminated clothing. Do not use if you are pregnant.

Application

Apply as a spray or granular application. Use only when there is no wind. Do not use in areas where there are birds, bees, or other insects. Do not apply to the same equipment used for other herbicides in the vicinity of crops. Do not use near feed or foodstuffs.

Excess amounts of this product should be disposed of in a safe place. Do not burn. Destroy empty containers by incinerating and bury in a safe place. Do not burn.

Avoid excess use in areas where there are desirable animals, birds and fish. Toxic to fish. Local conditions may affect the use of herbicides. State agricultural authorities should be consulted for information to fit local conditions. Be sure that the use of this product conforms to applicable conditions.
