CAUTION: Harmful if swallowed. Irritating.

Do not eat in room; harmful if swallowed. Avoid contact with eyes. A small amount of liquid may form on the strip. Avoid contact with liquid. Wash hands thoroughly with soap and water after handling strip. Do not use in nurseries or rooms where infants, ill or aged persons are confined. Do not use in kitchens, restaurants or areas where food is prepared or served. Do not contaminate or run strip over feed, water or food containers.

USE DIRECTIONS

ANIMAL BUILDING: For the control of flies, gnats and mosquitoes in Dairy barns, Calf barns, Stables, Pig Parlors, Poultry houses, Iron Kennels, Small Animal quarters - hang one Vapona Strip for each 100 cubic feet of enclosed area. Treatment is usually effective for 7 months. Weather or drafts may alter performance; replace strip if effectiveness diminishes.

HOUSES, MOTELS, CHURCHES, FREE ROOMS, ETC ROOMS, MILK ROOMS AND OTHER BUILDINGS: For the control of flies, gnats, mosquitoes and other small flying insects, and the reduction of silverfish in houses - hang one Vapona Strip in an average size room (10' x 10' x 10'). Treatment is usually effective for 7 months. Weather or drafts may alter performance; replace strip if effectiveness diminishes.

GARBAGE CANS: For fly control in garbage can attach one strip to the average-sized can (10 gallon capacity). Keep lid closed. One strip will be effective for an entire fly season.

SEWERS AND CATCH BASINS: To control mosquitoes breeding in sewers and catch basins, hang one Vapona Strip about 10" above the water level of any enclosed drain area. An aerial in the immediate vicinity of the sewer lateral systems, hang one strip to within 2 feet of the bottom of the manhole.

Note: Use of the packaged product is intended only for the control of flies, mosquitoes, gnats, and other small flying insects. Do not use as an insecticide for other purposes. Do not inhale or ingest. Do not use on animals.
