Institutional d-CON Flying Insect Killer Spray leaves no petroleum odors, residues, oil stains or spots. The exclusive non-oily, water based, formula eliminates even the minor amounts of undesirable petroleum type chemicals and solvents normally found in insecticides.

Institutional d-CON Flying Insect Killer Spray is a multi purpose insecticide that kills flying and crawling insects yet has a fresh, clean fragrance. Institutional d-Con Flying Insect Killer Spray is effective against insects in areas frequented by the public, such as restaurants, hospitals, schools and supermarkets.

Institutional d-CON Flying Insect Killer Spray is listed under category 'F1' in USDA "List of Chemical Compounds" authorized for use under USDA Poultry, Meat, Rabbit and Egg Products Inspection Programs.

**PRECAUTIONARY STATEMENTS:
HAZARDOUS TO HUMANS AND
DOMESTIC ANIMALS**

CAUTION: Harmful if swallowed. Avoid breathing spray mist. Avoid contact with skin and eyes.

**STATEMENT OF PRACTICAL TREATMENT
IF IN EYES:** Remove contact lenses, flush eyes with plenty of water for at least 15 minutes. If irritation occurs, obtain medical attention.

IF ON SKIN: Flush with water. If irritation occurs, obtain medical attention.

IF SWALLOWED: Drink large quantities of water or milk, consult a physician.

Do not apply directly to food. In commercial food handling facilities, cover or remove any food processing equipment during application. Do not apply while food processing is in progress. After spraying in meat packing plants, bakeries and other food processing plants, thoroughly wash using an effective cleaning compound. All food processing surfaces, benches, shelves, etc., and rinse with potable water before reuse. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use.

Remove pets, birds, and cover fish aquariums before spraying.

PHYSICAL OR CHEMICAL HAZARDS
Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting.

STORAGE AND DISPOSAL
Storage: Store in original container in areas inaccessible to small children. Disposal: Wrap and discard container in trash. Do not puncture or incinerate.

INSTITUTIONAL d-CON®

NET WEIGHT 1 LB. 3 OZ. (19 OZ.)

INSTITUTIONAL d-CON. FLYING INSECT KILLER SPRAY

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE BEFORE USING. Hold can upright with valve opening away from face and press button to spray.

TO KILL FLYING INSECTS (Flies, mosquitoes and small flying insects)

INDOORS: Close doors and windows and spray into air with circular sweeping motion. Fill room with mist. Keep three feet from walls, fabrics and furniture. Remove birds and fish from room before spraying. Do not remain in treated areas and ventilate the area after treatment.

OUTDOORS: The number of annoying insects can be reduced by misting or fogging surroundings when air is quiet. Tables, chairs and nearby foliage may be sprayed directly.

To kill mosquitoes, flies and other small flying insects on outside shrubs and foundation plantings, mist thoroughly. Repeat as reinfestation occurs.

TO KILL CRAWLING INSECTS

INDOORS: Ants, roaches, waterbugs, silverfish, spiders, crickets, palmetto bugs and certain others. Spray into hiding places, such as cracks and crevices, under baseboards, under sinks, in closets and in refuse areas. Spray insects directly if possible. Repeat as necessary.

FLEAS: Spray floors and sleeping quarters of pet. Repeat as often as necessary.

BEDBUGS: Spray baseboards and moldings. Spray mattresses, particularly around tufts and seams. Spray all crevices of bed frame. Repeat as necessary.

ACTIVE INGREDIENTS:
Pyrethrins 0.25%
*Technical Piperonyl Butoxide 0.90%
††† Octyl bicycloheptene dicarboximide 0.50%
INERT INGREDIENTS 98.35%

*Equivalent to 0.72% (butylcarbitol) (5-propylpyperonyl) ether and 0.18% related compounds.
