GENERAL INFORMATION

LINE RIDER AMINE 4T BRUSH KILLER is an amine formulation of 2,4,5-T which forms a solution in water. It will not mix with diesel oil, fuel oil or kerosene.

DO NOT use or store in or around the home, recreation areas or similar sites.

The following plants are included among those susceptible to LINE RIDER AMINE 4T:

Alder	Elm	Salmonberry
Ash	Greenbrier	Poison ivy
Aspen	Gum	Palmetto
Birch	Honeysuckle	Sumac
Boxelder	Locust	Wild cherry
Brambles	Maple	Wild grape
Buckbrush	Oak	Willow
Elderberry	Osageorange	

When stored at temperatures below freezing, it may be necessary to warm up to at least 45° F. and shake thoroughly before using.

DIRECTIONS FOR USE

PREPARATION OF THE SPRAY: Fill the spray tank with half the required amount of water. Add the recommended amount of LINE RIDER AMINE 4T with agitation and continue filling the spray tank with water.

LINE RIDER AMINE 4T is designed for use in control of brush and woody plants. Its principal use is on rangeland, clearance, power lines, rights of way, stump land, and certain waste areas where it is desired to kill or repress growth of woody plants. This product is not intended for weed control in growing crops.

FOLIAGE TREATMENT: Foliage or leaf stem sprays are used during the growing season on dense brush or where vine growth such as Smilax, greenbrier and other common woody vines is a problem.

Apply LINE RIDER AMINE 4T after foliage is well developed using a drenching spray containing 3 to 4 quarts in 100 gallons of water. Coverage should be complete, wetting all parts of the plants, including leaves and stems, to the point of run-off. The best time for spraying is when soil moisture levels are favorable for growth. DO NOT treat during periods of severe drought or in early fall when leaves have lost their healthy green color.

LINE RIDER AMINE 4T kills more slowly than ester sprays. Therefore, any retreatment that might appear to be necessary should be delayed until the following season.

CAUTION

Harmful if swallowed or absorbed through the skin.

CAUSES IRRITATION OF EYES AND SKIN.

DO NOT get in eyes. In case of contact, flush eyes with plenty of water for at least 15 minutes and get medical attention.

DO NOT allow contact with skin or clothing. Wash exposed skin gently with plenty of soap and water.

DO NOT store near fertilizers, seeds, insecticides or fungicides.

DO NOT contaminate irrigation ditches or water used for domestic purposes.

Use care to avoid spray drift to 2,4,5-T susceptible plants such as cotton, tomatoes, flowers, grapes, fruit trees and ornamentals. Trace amounts of spray drift may cause severe injury to both growing and dormant plants. Coarse sprays are less likely to drift. Spray only on calm days using low pressure and lowered boom.

Flush sprayer out on suitable non-crop area after use. DO NOT use the same spray equipment for applying other materials to plants as injury will result.

DO NOT graze dairy animals on treated areas within 6 weeks after application. DO NOT graze meat animals on treated areas within 2 weeks of slaughter.

DO NOT reuse empty container. Return to drum reconditioner, or destroy by perforating, crushing and burying or discarding in a safe place.

Contamination of shallow fish-bearing waters at application rates recommended on this label may kill fish.

WARRANTY AND LIMITATION OF DAMAGES

SELLER warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use and BUYER assumes the risk of any use contrary to such directions. SELLER makes no other express or implied warranty, including any other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of SELLER is authorized to do so except in writing with a specific reference to this warranty. In no event shall SELLER's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.
