UNDER THE FEDERAL FUNGICIDE AND FERTILIZER ACT REGISTERED UNDER NO. 839-34

DIRECTIONS FOR USE

Apply as a mist. Use a good hand or machine sprayer.

site 1
CATTLE, HORSES AND MULES: Cattle should be sprayed before milking. Horses and mules should be sprayed lightly before leaving the stable. Care should be taken to spray all parts of the animals with the exception of the udder and eye regions. Apply 1 to 2 ounces of BELCO LIVESTOCK AND DAIRY BARN SPRAY to each adult animal, taking care not to soak the skin or hide. As many as two sprayings may be made daily to repel house flies, stable or barn flies, horn flies and mosquitoes.

6
FLIES: To reduce fly population in barns, stables and milkrooms, use BELCO LIVESTOCK AND DAIRY BARN SPRAY with a good power sprayer according to these recommendations—direct the spray toward the upper portions of

the enclosure until the area is filled with a fine mist. Whenever possible, keep doors and windows closed for 10 minutes after the application.

CHICKEN MITES: Spray ⁷roosts, ¹⁰nests, etc., paying particular attention to all cracks, crevices and other hiding places. Thorough cleaning before spraying will help in controlling mites. Repeat application daily until infestation is eliminated.

FLEAS: Spray thoroughly ¹¹sleeping quarters and other places where the infested animals stay. Repeat as necessary. Adult dogs may be sprayed lightly. DO NOT use on young animals.

CAUTION: Avoid wetting the hides of animals. Harmful if swallowed. Inflammable mixture. DO NOT use or store near heat or open flame.
