

DIRECTIONS

CONTROL-35 Germicidal Cleaner is a disinfectant for hospital use, sanitizer, detergent, fungicide, deodorant, and virucide designed for reducing hazards of cross-infection on environmental surfaces in hospitals, nursing homes, schools, motels, and industry. CONTROL-35 can be used as a:

DISINFECTANT — CONTROL-35 at a 1-to-64 dilution (2 oz. to 1 gal. of water) is an effective disinfectant and germicide in medical environments such as hospitals and nursing homes. For best results mop or wipe floors, walls, sink tops, rest rooms, garbage pails, and other hard surfaces. At this dilution, CONTROL-35 demonstrates disinfectant activity against *Staphylococcus aureus*, *Salmonella choleraesuis*, *Pseudomonas aeruginosa*, *Escherichia coli*, and *Trichophyton interdigitale*.

CONTROL-35, at a 1-to-128 dilution (1 oz. to 1 gal. of water) is an effective disinfectant and germicide for non-medical environments such as schools, motels, hotels, and industry. At this dilution, CONTROL-35 is effective against *Staphylococcus aureus*, *Salmonella choleraesuis*, *Escherichia coli*, and *Trichophyton interdigitale* (the causative agent of athlete's foot). For heavily soiled areas a preliminary cleaning to remove the gross dirt and heavy soil deposits from surfaces prior to application of the recommended solution is required.

SANITIZER-DEODORANT — CONTROL-35 at a 1-to-256 dilution (1/2 oz. to 1 gal. of water), is an effective sanitizer. CONTROL-35 is authorized for use under USDA Consumer and Marketing Service inspection programs for poultry, meat, rabbit and egg product plants, as a sanitizer for food processing equipment and food containers.

FUNGICIDE — CONTROL-35, at a 1-to-64 dilution (2 oz. to 1 gal. of water), is effective against *Trichophyton interdigitale* strain #640 (the causative agent of athlete's foot).

VIRUCIDAL PROPERTIES — CONTROL-35 when used on environmental inanimate hard surfaces at 2 oz. per gallon of water, is effective against Influenza A (the Hong Kong flu virus), Herpes Simplex (a member of the virus family that causes infectious mononucleosis), Adenovirus type 5 (a causative virus in respiratory diseases), and Vaccinia virus (representative of the pox viruses).

MOLD INHIBITING — CONTROL-35 prevents the growth of mold and mildew on hard surfaces for seven days when diluted 2 oz. per gallon of water. Wash the surface and leave it damp. Do not rinse. Repeat application every seven days to control recurrence of growth.

DISPOSAL

Do not reuse empty container.
Triple rinse empty container and put in trash.

CONTROL-35 GERMICIDAL CLEANER

A DISINFECTANT FOR HOSPITAL USE
ONLY FOR SALE TO, USE, AND STORAGE
BY SERVICE PERSONS

ACTIVE INGREDIENTS:

Didecyl dimethyl ammonium chloride	4.5%
Tetrasodium ethylenediamine tetraacetate	2.0%
Sodium carbonate	1.0%
Sodium metasilicate	0.6%
INERT INGREDIENTS	92.0%
	100.00%

WARNING: KEEP OUT OF THE REACH OF CHILDREN.
See right side panel for additional precautionary statements and first aid.

NET CONTENTS: ONE GALLON

CONTROL-35 Germicidal Cleaner when used as directed has germicidal and static action against the following organisms:

Adenovirus type 5	Klebsiella pneumoniae	Serratia marcescens
Alcaligenes faecalis	Micrococcus	Shigella dysenteriae
Arizona sp.	lysodeikticus	Shigella newcastle
Aspergillus niger	Pityrosporum	Shigella sonnei
Brevibacterium	Proteus mirabilis	Staphylococcus aurei
animomagenes	Proteus vulgaris	Staphylococcus
Candida albicans	Pseudomonas aeruginosa	epidermidis
Enterobacter aerogenes	Salmonella enteritidis	Streptococcus faecia
Enterobacter cloacae	Salmonella derby	Streptococcus pyog
Escherichia coli	Salmonella pullorum	Streptococcus virid
Herpes Simplex	Salmonella typhimurium	Trichophyton inferdi
Influenza A (the Hong	Salmonella senftenberg	Vaccinia virus
Kong flu virus)	Salmonella typhimurium	Zygosaccharomyce

WARNING: Keep out of reach of children. May cause severe eye irritation, eye damage. Causes skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food.
