	U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (7505C) Ariel Rios Building 1200 Pennsylvania Ave., NW Washington, D.C. 20460	EPA Reg. Number: 1021-1833	Date of Issuance: APR 13 2006
		Term of Issuance: Unconditional	
		Name of Pesticide Product: Nyguard Aerosol 28561	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> Registration <input type="checkbox"/> Reregistration (under FIFRA, as amended)			
Name and Address of Registrant (include ZIP Code): Julie Schlekau McLaughlin Gormley King Company 8810 Tenth Avenue North Minneapolis, MN 55427			
Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.			
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>This product is unconditionally registered in accordance with FIFRA Sec. 3(c)(5) provided you make the label changes listed below and submit revised labels to EPA for review before you release this product for shipment. Once a pesticide is registered, however, it is not regarded as permanently acceptable. Registration does not eliminate the need for continual reassessment of pesticides. If the Agency determines that, at any time, additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under FIFRA section (3)(c)(2)(B).</p>			
<u>Label Changes</u>			
<ol style="list-style-type: none"> 1. Change the EPA Reg. No. to 1021-1833. 2. You must submit/cite product efficacy data or delete from the label the following pests: bedbugs, deer flies, deer ticks, horse flies, house flies, lesser house flies, Pharaoh ants, sand flies, carpenter ants, cluster flies, face flies, flies, gnats, lice, lone star ticks, midges, mosquitoes, no-see-ums, stable flies and ticks. It is noted that ticks, mosquitoes and lice are already approved on some labels but the selective citations provided do not support the addition of this pest. In addition, you must cite pyriproxyfen only products that have been approved for all the use patterns and pests on this label. 3. The label must clearly state that the product targets immature life stages (nymphal and larval) of the listed pests only. 4. Cite the study that shows NyLar makes cockroaches leave their harborages or delete the claim. 			
Signature of Approving Official:  Richard Gebken Product Manager (10) Insecticide Branch Registration Division (7505C)		Date: APR 13 2006	

5. Adjust the directions for use so that they conform to the range of container sizes (6- 20 oz). The directions for use may not require more product than is contained in a single container.

6. Add to the Directions for Use the following:

In hospitals and nursing homes, remove patients before treating rooms. Ventilate rooms for two hours before returning patients.

7. In the directions for indoor fogging and space spray add the following:

Remove all persons from area to be treated. Close area to be treated. Shut off ventilation systems. Do not remain in treated area. Ventilate before re-entry.

8. In the directions for use in serving and dining areas add the following:

This product may be used in dining areas only when facility is not in operation and food is not exposed.

9. The directions for cleaning exposed food contact surfaces must include the following:

After cleaning rinse with a potable water.

In order to make sure all concerns are addressed, submit five copies of a revised label to EPA for review before you release this product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

The confidential statement of formula dated 9/16/05 is acceptable.

MGK®

McLAUGHLIN
GORMLEY
KING COMPANY

8810 Tenth Avenue N. / Minneapolis, Minnesota 55427-4372 U.S.A. - Telephone (763) 544-0341

- Insect Growth Regulator that works with nature to break the life cycle of listed insects and related pests
- Effective Indoors and Outdoors
- Non-Flammable Dry Fog Aerosol
- May be used in food and non-food areas of listed sites

ACTIVE INGREDIENTS:

2-[1-Methyl-2-(4-phenoxyphenoxy) ethoxy] pyridine 0.10%

OTHER INGREDIENTS 99.90%
100.00%

NYLAR® - Registered trademark of McLaughlin Gormley King Company

KEEP OUT OF REACH OF CHILDREN
CAUTION

FIRST AID

IF IN EYES:	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses, if present, after the first 5 minutes, and then continue rinsing eyes.• Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING:	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15-20 minutes.• Call a poison control center or doctor for treatment advice.
IF SWALLOWED:	<ul style="list-style-type: none">• Immediately call a poison control center or doctor.• Do not induce vomiting unless told to do so by a poison control center or a doctor.• Do not give any liquid to the person.• Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call the International Poison Center at 1-888-740-8712.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment washwater or rinsate.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not apply this product around electrical equipment due to the possibility of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USE.

GENERAL INFORMATION:

NYGUARD® Aerosol 28561 contains NYGUARD® Insect Growth Regulator. NYGUARD® IGR disrupts the normal development of immature insects with complete and incomplete metamorphosis. Depending upon the insect species and life stage at the time of exposure, and the length of exposure to NYGUARD® IGR, the observed results can include: decreased egg viability, sterile adult insects incapable of reproduction, suspension of insect in immature life stages, reduced fitness of insect, behavioral changes, reduced egg production, morphological defects - deformed insects and death. NYGUARD® Aerosol 28561 is non-repellent and should be considered an important component in insect baiting programs. NYGUARD® Aerosol 28561 will affect insects that fail to accept and consume bait. NYGUARD® Aerosol 28561 also stimulates cockroaches to leave harborage sites, increasing their exposure to baits and residual insecticide treatments. When used in an Integrated Pest Management (IPM) program, NYGUARD® Aerosol 28561 breaks the cycle of insect infestation, reproduction, and re-infestation.

3/5

Prior to using in commercial or residential food areas, please refer to the Food Handling Establishment Applications section of the label. The preparations prior to treatment and the clean up after application described are also to be followed for residential use.

AS A SURFACE SPRAY: Apply NYGUARD® Aerosol 28561 at a rate of 1 ounce per 150 sq ft of surface area or 17 oz per 2550 sq. ft. of surface area [20 oz per 3000 sq. ft. of surface area].

NYGUARD® Aerosol 28561 is generally non-staining but to be sure, apply a small amount in an inconspicuous location and check for staining in a few hours.

Apply NYGUARD® Aerosol 28561 every 12 weeks for continuous protection, or more often if conditions warrant.

USE SITES

USE NYGUARD® Aerosol 28561 in and around indoor and outdoor areas such as, but not limited to: Animal Quarters (enclosed premise treatment), Apartment Buildings, Atriums, Attics, Automobiles, Backyards, Bakeries, Bathrooms, Basements, Bedrooms, Boats, Breweries, Buses, Cabinets, Cabins, Cafeterias, Campers, Candy Plants, Canneries, Carpets, Cereal Processing Facilities, Chests, Closed Porches, Closets, Clothes Storage, Commercial Buildings, Condominiums, Convenience Stores, Crawl Spaces, Crematoriums, Dairies, Day Care Centers, Decks, Delicatessens, Dens, Dog Houses, Dog Kennel Runs, Dormitories, Draperies, Dressers, Drugstores, Factories, Floors, Flour Mills, Food Processing Plants, Food Warehouses, Funeral Parlors, Furniture, Garages, Garbage Areas, Garbage Cans, Gazebos, Grain Storage Facilities, Grocery Stores, Homes, Hospitals, Hotels, Indoor Eating Establishments, Industrial Plants, Institutional Dining Areas, Institutions, Jails, Kennels, Kitchens, Lanais, Lawns, Living Rooms, Locker Rooms, Mass Merchandising Stores, Mausoleums, Mess Halls, Marine Vessels, Mobile Homes, Morgues, Mortuaries, Motels, Animal Mounts (taxidermy), Nursing Homes, Office Buildings, Other Public Buildings, Outdoor Eating Establishments, Pantries, Parks, Patios, Pet Bedding, Pet Carriers, Pet Grooming Parlors, Pet Sleeping Areas, Pet Stores, Pet Quarters (enclosed premise treatment), Play Rooms, Porches, Prisons, Recreational Areas Indoors, Recreational Areas Outdoors, Recreation Vehicles, Restaurants, Rugs, Schools, Ship Yards, Sports Stadiums, Storage Areas, Supermarkets, Taverns, Theaters, Tobacco Plants and Warehouses, Town Houses, Trailers, Trains, Trucks, Transportation Vehicles, Upholstered Furniture, Utility Rooms Indoors, Utility Rooms Outdoors, Vending Machines, Verandas, Veterinary Clinics, Warehouses, Washrooms, and Zoos.

NYGUARD® Aerosol 28561 breaks the cycle of insect infestation, reproduction and re-infestation for insects and related pests with both complete and incomplete metamorphosis. Pests in the Orders Acari, Anoplura, Blattodea, Coleoptera, Dermoptera, Diptera, Heteroptera, Hymenoptera, Lepidoptera, Orthoptera, Psocoptera, Siphonaptera, as well as certain other orders are susceptible to NYGUARD® Aerosol 28561's active ingredient. Specific pests include, but are not limited to:

Almond Moths	Crickets	Hoe Beetles	Pharaoh Ants
Angoumois Grain Moths	Darkling Beetles	Horntails	Phorid Flies
Ants	Deer Flies	Horse Flies	Psocids
Asian Lady Beetles	Deer Ticks	House Flies	Red Flour Beetles
Bedbugs	Dermeistid Beetles	Indian Meal Moths	Rice Moths
Beetles	Drain Flies	Khapra Beetles	Rice Weevils
Black Carpet Beetles	Drugstore Beetles	Lesser Grain Borers	Sand Flies
Booklice	Earwigs	Lesser House Flies	Saw-toothed Grain Beetles

Boxelder Bugs	Elm Leaf Beetles	Lice	Silverfish
Carpenter Ants	Face Flies	Litter Beetles	Stable Flies
Cheese Skippers	Fleas	Lone Star Ticks	Ticks
Cigarette Beetles	Flies	Mealworms	Tobacco Moths
Clothes Moths	Fruit Flies	Merchant Grain Beetles	Warehouse Beetles
Cluster Flies	Fungus Gnats	Midges	Weevils
Cockroaches	Gnats	Mosquitoes	
Confused Flour Beetles	Granary Weevils	Moths	
Copra Beetles	Ground Beetles	No-see-ums	

Use NYGUARD® Aerosol 28561 as a general surface spray, space spray, fog, spot, or crack and crevice application.

GENERAL SURFACE AND SPOT APPLICATION

To apply as a general surface or spot application, hold can 10 to 12 inches away from surface to be treated. Use a sweeping motion over the surface to be treated for complete coverage. Apply NYGUARD® Aerosol 28561 at a rate of 1 ounce per 150 sq ft of surface area or 17 oz per 2550 sq. ft. of surface area [20 oz per 3000 sq. ft. of surface area]. Apply to areas where insects harbor or travel such as walls, floors, ceilings, attics, baseboards, around doors and windows, closets, storage areas, and basements and on pallets. Also, apply behind and under equipment, appliances, furniture, beds, display units, gondolas, and shelving. Application may be made to furniture, beds, box springs, mattresses, rugs, carpets, taxidermy, and curtains.

SPACE SPRAY AND FOGGING APPLICATIONS

NYGUARD® Aerosol 28561 may be applied as a space spray or fogging treatment for smaller spaces such as pantries, attics, kitchens, storage rooms, closets, and animal quarters. Use as a fog to get good coverage on hard-to-reach surfaces such as false ceilings, inside equipment, rafters and crawl spaces. Fog NYGUARD® Aerosol 28561 at a rate of 1 ounce per 300 cubic feet space or 17 oz per 5100 cubic feet of space (20 oz. per 6000 cubic feet of space). Direct applications to the upper corners of the room, as well as behind, under and around objects in the area being treated. For larger spaces, consider applying NYGUARD® IGR Concentrate with ULV fogging equipment. Remove animals and people prior to a space spray or fogging application. Wait until fog or space spray application has settled and dried prior to reentry.

CRACK AND CREVICE APPLICATIONS

Use the supplied extension tube for crack and crevice applications. Apply directly to areas such as: wall voids, pipe chases, crevices, false ceilings, around water pipes, doors, windows, foundation cracks, weep holes, joints and gaps in exterior surfaces as well as behind and under appliances, equipment, furniture and beds.

INDOOR AND OUTDOOR USES

Apply NYGUARD® Aerosol 28561 as a general surface, fog, spot, or crack and crevice treatment in listed areas. Apply to all areas that insects breed, harbor or travel, including carpets, pet bedding, storage areas, cabinets, under and between stored materials, pallets and equipment, soil, French drains, gutters, under and around landscaping, gazebos, decks, patios and other listed areas. Do not apply directly to plant foliage as leaf damage may occur. Rinse accidentally sprayed foliage with water.

FOOD HANDLING ESTABLISHMENT APPLICATIONS

4/5

Apply NYGUARD® Aerosol 28561 as a general surface spray, fog, spot, or crack and crevice treatment in both food and non-food areas of food handling establishments. These establishments are defined as places other than private residences where exposed food is held, prepared, processed, or served. It also includes areas where food items are: received, prepared, packaged, and stored, as well as enclosed food processing systems (mills, dairies, etc.). Prior to application, remove or cover all food items in area to be treated. Do not apply directly to food or food-handling surfaces.

SURFACE SPRAY, SPOT OR CRACK AND CREVICE APPLICATION:

Do not apply directly to food, food products, or food-handling surfaces.

GENERAL AREA OR FOG TREATMENTS:

Prior to application, remove or cover all food items. Also, cover all food contact surfaces (i.e., equipment, benches, and shelves - areas where exposed food may be handled, held, prepared, processed, or served). If left uncovered, these areas must be thoroughly cleaned by a method capable of removing chemical residues after treatment.

PANTRY/CABINETS, SMALL FOOD STORAGE AREAS:

Apply as a surface spray, fog, crack and crevice spray, or spot treatment to pantry and cupboard shelves or other areas where food is stored. Prior to spraying, remove all food containers and foodstuffs. Do not replace food containers or foodstuffs until spray has dried. Dispose of any infested food packages or materials.

STORED FOOD WAREHOUSES:

Apply NYGUARD® Aerosol 28561 as a general surface spray, fog, spot, or crack and crevice treatment in warehouses where packaged food items are stored in such a way that direct contact with the foodstuff is not anticipated.

DRAIN FLIES:

For control of drain flies and fruit flies: Apply NYGUARD® Aerosol 28561 to fly breeding sites. For drains, apply product into and around the downspout and catch basin area. Spray (Coat) these areas thoroughly as fly larva develop in the scum buildup on the sides of drain pipes. Repeat applications at 6 to 8 week intervals depending upon the severity of infestation.

BITING AND BLOODFEEDING INSECT PESTS:

When used as part of an IPM program, NYGUARD® Aerosol 28561 will assist in the control of biting and bloodfeeding insects such as fleas, lice, bedbugs, ticks, mites, flies, mosquitoes, gnats, no-see-ums and other listed insects. Apply as a surface spray, space spray, fog, crack and crevice spray, or spot treatment.

For crawling, biting and bloodfeeding insect pests, treat all areas that may harbor insects, such as carpets, throw rugs, furniture, draperies, pet bedding, kennels, under beds, box springs, mattresses, under and behind night stands and headboards, points where carpet and wall meet, cracks in baseboard molding, and other areas where these pests travel or hide. Treat under cushions and in seams and folds of upholstered furniture.

For flying biting and bloodfeeding insects, treat moist breeding areas such as manure, litter, debris, compost heaps, under sinks, in drains (to sewer), gutters, fountains, tree holes, tires, French drains, the soil of potted or outdoor plants, under landscaping, under decks, and in other areas where moisture or standing water collects. Do not apply directly to natural bodies of water such as ponds, streams, lakes, rivers, marshes, potholes, and estuaries. If needed, repeat outdoor applications every 4 or 8 weeks, or if heavy rainfall occurs, repeat as necessary.

PET KENNELS, LIVESTOCK, AND POULTRY HOUSING:

Apply as a surface spray, fog, crack and crevice spray, or spot treatment to areas where insects harbor, breed, rest, or travel. Apply to walls, ceilings, floors, cages, stock pens, stalls, walkways, stanchions, pipes, conduit, bedding, doors, windows, manure, and manure handling systems, exterior surfaces, foundation cracks, along building perimeter, and other listed areas. Treat areas where moisture or water collects. Do not contaminate water or feed. For interior applications, remove animals prior to treatment. Allow spray to dry before allowing animals back into treated areas.

Keep pets and children out of the treated area until after spray has dried. Do not spray animals. Dogs, cats, and their kennel or bedding area should also be treated with a registered flea control product in conjunction with this application.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in a warm, dry place. Keep container closed.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL:

Do Not Puncture or Incinerate!

If empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.
