Regulatory Affairs Specialist

Subject: MGK F-2926 (P), EPA Reg. No. 1021-1873  
Fogger mitigation amendment  
Decision: 458863

DEC 28 2011

Dear Mr. Lennan:

The labeling referred to above, submitted in connection with registration under the Federal insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable.

Two (2) copies of the finished labeling must be submitted prior to releasing the product for shipment. A stamped copy of the label is enclosed for your records. If you have any questions, you may contact Samantha Hulkower at (703) 603-0683 or Hulkower.Samantha@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark Suarez", with a small flourish to the right.

Mark Suarez  
Product Manager (13)  
Insecticide Branch  
Registration Division (7505P)

Enclosure: Copy of Label Stamped "Accepted"

<p>Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-888-740-8712.</p>	

PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION**

Product smoke is harmful if inhaled. Avoid breathing the smoke. Avoid contact with eyes. May cause sensitization following repeated contact with the skin of susceptible individuals. Cover and turn off fish aquariums. Remove plants, pets, and birds before using. Wash hands with soap and water after handling.

Do not use in food areas of food handling establishments, restaurants, etc.

PHYSICAL OR CHEMICAL HAZARDS

When metal cartridge comes in contact with water, and for 30 minutes thereafter, it will be hot. This is normal. In order to prevent skin burns, do NOT touch metal container during this time. Heat resistant cup protects contact surfaces.

MGK® F-2926 is a deep-penetrating fumigating fogger [that kills exposed bedbugs where they hide] . When activated, it fumigates the whole room with a white cloud of smoke. The smoke stays in the air during the 3-hour treatment, penetrating deep, filling cracks and crevices and going way under furniture and appliances to kill bed bugs, roaches and fleas where they hide. German roaches may take longer to kill than other bugs.

One unit treats a room of 3,000 cubic feet. For best results keep treated room closed for 3 hours.

Kills: Bed Bugs, Roaches (Palmetto bugs and Water bugs), adult fleas, ticks, mosquitoes, flies, ants and spiders.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For Use in Homes, Kennels and Non-Food areas of Commercial Buildings such as: Warehouses, Theatres, Office Buildings, Schools, Motels, Hotels, Restaurants and Food Processing Facilities..  
Indoor Treatment:

For Indoor Use Areas with multiple rooms or spaces to be treated, prepare and treat each room up to 19 ft x 20ft with an 8 ft. ceiling [or 3,000 cubic feet of space separately.]

**TO USE THIS PRODUCT CORRECTLY:**

Do not use multiple units in a room  
Do not use in small confined areas such as closets, cabinets or under counters or tables.  
Pictograms to illustrate the following are to be inserted in this location of the Directions for use.  
[Do not use multiple canisters in a room]  
[Do not use in small confined areas]

1. **BEFORE YOU FOG:** : Open cupboards, cabinets, drawers, hampers, luggage, chests, closets, and doors in the areas to be treated. Remove or cover all exposed food, dishes, and utensils.

[A pictogram to illustrate the following is to be inserted in this location of the Directions for use:]  
[Remove or cover exposed food]

Remove plants, pets, and birds. Cover and turn off fish aquarium aerators. Close windows and doors. Shut off fans, air conditioners, ventilating equipment, and temporarily disconnect or cover & seal smoke alarms with plastic. Prevent fog movement into adjoining areas or rooms by covering open duct work or vents. For best results, remove and wash bedding (sheets and blankets), empty drawers and chests, lower shades and close curtains, and remove wall plates from electrical outlets. Leave drawer contents in the room to be treated or treat in another manner. Remove cushions from sofas and chairs but leave in the room to be treated.

2. **TO START FOGGING:** : DO NOT OPEN UNTIL READY TO USE. Use one treatment unit for every 3000 cubic foot area to be treated. TAKE OFF THE PLASTIC LID OF THE CONTAINER. The paper lid can be thrown away. Take the canister out of the plastic cup and remove the aluminum [foil] packaging. Fill out and place hang-tag on the door to the treated area to alert family and others with access to the treated area not to enter for 3 hours.
3. Fill plastic cup with water to fill line, Place unit on a flat, stable surface or on the floor in the center of the room or space to be treated. Place canister with ARROWS POINTING UP into cup with water. DO NOT OVER FILL. DO NOT INSERT CANNISTER UPSIDE DOWN. The water will slowly activate the dry fogger allowing time for you to leave the room.
4. The appearance of marker smoke (not the insecticide) within 1-2 minutes is indicative of activation . **VACATE THE TREATED HOUSE, INDIVIDUAL APARTMENT UNIT, OR OTHER STRUCTURE IMMEDIATELY.** Keep doors, vents, and windows closed for 3 hours. **DO NOT RE-ENTER FOR 3 HOURS.**

[A pictogram to illustrate the following is to be inserted in this location of the Directions for use:]  
[A clock face depicting the passage of 3 hours time]

5. **AIRING OUT:** : Before re-occupying area, open all doors and windows, and ventilate for 30 minutes. Reactivate or uncover smoke alarms, fans, air conditioners, and ventilating equipment.  
[A pictogram illustrating the following is to be inserted in this location of the Directions for use:]  
[Air Out room before entering]

Bedbugs: To kill [hidden] Bedbugs [that are exposed to treatment ], use one unit per 3000 cubic foot room or space to be treated. Vacuum and remove dead bedbugs after treatment. MGK® F-2925(C) can be used as part of an integrated pest management (IPM) approach to control bedbugs, including use of Bedlam Aerosol Insecticide, Onslaught Microencapsulated Insecticide, and PyGanic Dust.. Always read and follow all label directions for each product.

Avoid contamination of food or feedstuffs.

Do not use in food areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms, but excluding areas where foods may be prepared or held. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed. Non-food areas are areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

Do not apply to classrooms when in use. Do not apply this product in occupied patient rooms or in any rooms/areas/ while occupied by patients, the elderly or infirm. Do not apply in institutions (including libraries, sports facilities, etc.) in the immediate area where occupants are present.

- Convenient-easy to use.
- Delayed fogging allows time to leave room.
- No oily residue on surfaces.
- No stains.

German cockroaches: This product takes longer to kill these roaches than other bugs.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store unused units in their original containers in dry area inaccessible to children.

PESTICIDE DISPOSAL:

If empty: Nonrefillable container. Do not reuse or refill this container.

Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

[DOOR HANG TAG LANGUAGE]

DO NOT ENTER UNTIL: \_\_\_\_\_ ON THIS DATE: \_\_\_\_\_
