Subject: Registration Review Label Mitigation for Abamectin
Product Name: MGK Formula 2977
EPA Registration Number: 1021-2614
Application Date: 09/12/2019
Decision Number: 555266

Dear Mr. Lennan:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all the information submitted with your application to support the Registration Review of the above referenced product in connection with the Abamectin Interim Decision, and has concluded that your submission is acceptable. The label referred to above, submitted in connection with registration under FIFRA, as amended, is acceptable.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

<p><u>PHYSICAL OR CHEMICAL HAZARDS</u></p> <p>Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not apply this product around electrical equipment due to the possibility of shock hazard.</p>

[MGK Formula 2977] [Brand name] contains Abamectin, an ingredient that keeps killing roaches [Cockroaches]. [MGK Formula 2977] [Brand name] kills roaches [Cockroaches] [where they breed]. [MGK Formula 2977] [Brand name] is guaranteed to work even for severe bug [insect] infestations or your money back.

For use in and around apartment buildings, condominiums, cabins, trailers, campers, RV's, utility sheds, homes and residential structures and other listed areas.

For Household Use – In closets, basements, attics, recreation rooms, living areas, kitchens, bathrooms, dining rooms, pantries, food storage shelving, waste receptacles, etc.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product
In a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions. Use only for the sites, pests and application methods described on this label.

For resistance management, MGK Formula 2977 [Brand name] contains Abamectin, a Group 6 insecticide. Any insect population may contain individuals naturally resistant to [MGK Formula 2977] [Brand name] and other Group 6 insecticides. The resistant individuals may dominate the insect population if this group of insecticides are used repeatedly. Appropriate resistance-management strategies should be followed.

USE RESTRICTIONS & PRECAUTIONS:

- Do not apply to areas that are accessible to children, domestic animals or pets.
- If product is mistakenly applied to an area accessible to children, domestic animals or pets remove product and wash area thoroughly.
- Do not apply to humans, animals, clothing, or bedding.
- Do not contaminate feed or food products, or food preparation surfaces, dishes, kitchen utensils or food containers.
- Do not use [residual] [insecticide] sprays on or near [gel] [MGK® Formula 2977] [Brand name].
- Wash hands thoroughly after handling product.

Application Instructions:

For Best Results:

Application rate is dependent on level of infestation and species to be controlled. Several smaller placements will provide faster control than a few larger spots, especially for German cockroach control.

The lower application rate should be used for low to moderate infestations. Use the higher rate for more severe infestations. Placements should be at or near harborage or congregation areas such as cracks and crevices, corners or other areas of movement.

- Do not apply gel to areas which have been recently sprayed with insecticide
- Check placements regularly and reapply if bait is consumed

HOW IT WORKS:

- Roaches eat the bait and return to hiding places to die

HOW TO USE:

To apply gel, remove the cap on the nozzle, touch the application tip to the surface and apply. The bait will adhere to non-greasy or non-dusty surfaces.

HOW MUCH TO USE [APPLY]:

For low to moderate infestations of cockroaches, place 12 to 24 small spots (Figure 1) or 4 to 8 lines of gel (Figure 3) per 100 square feet.

For heavy infestations, place 12 to 24 larger spots (Figure 2) per 100 square feet.

Examples of Roach Gel Amounts:

Figure 1: Spot of gel approximately 0.25 grams

Figure 2: Spot of gel approximately 1.0 grams

Figure 3: Line of gel approximately 1/8 inch x 2 inches

Indoors: Place bait in cracks and crevices in warm moist areas where roaches hide, such as kitchens and bathrooms, along openings leading into voids and hollow spaces in floors, walls and ceilings, around plumbing pipes (sinks, basins, water pipes and drains), behind and under appliances (refrigerators, stoves, dishwashers, washing machines, etc.), and near trash cans. Keep bait out of the reach of children. [Illustrations]

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE:

Store in a cool, dry place. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:

Do Not puncture or Incinerate! Non-refillable container. Do not reuse or refill this container.

If empty:

Place in trash or offer for recycling if available.

If partly filled:

Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

[WARNING: This product contains a chemical known to the State California to cause birth defects or other reproductive harm.]

Optional Marketing Claims:

- Kills Roaches, Palmetto Bugs, and Waterbugs
- Effective and Easy to Use
- Effective Control
- Easy to Use
- No vapors or fumes
- No objectionable odor
- No odor
- No mess
- Guaranteed to Work or Your Money Back
- Roaches eat the bait and return to the nest to die
- Kills roaches where they hide –or- breed –or live
- Kills roaches you see and those you don't
- Roaches take the bait back to the nest
- Easy-to-Apply (just where you need it)
- Easy-to-Apply Spray Bait
- Contains proprietary bait formulation
- Highly effective bait formulation
- Targets the nest
- Targets roach hiding places
- Targets roach hideouts
- Roaches eat the bait and die in the nest
- Roaches eat the bait and die in their hiding places
- For hard to reach hiding places
- For use in cracks and crevices
- Kills roaches in their nesting places (nests)
- Kills (Destroys) roaches at the source
- Kills (Destroys) Roaches Where They (Breed) (Hide) (Live)
- Protects and Defends Against Roaches
- Stops Roaches Before They Become a Problem
- Relief from Even Severe Roach Infestations
- Works Around the Clock
- Contains none of the big 8 allergens
