Subject: Label Amendment – Add Additional Claims
Product Name: Olyset® Net
EPA Registration Number: 1021-2756
Application Date: February 29, 2016
Decision Number: 514682

Dear Mr. Ditto:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[Instructional insert for spring hoops]

[Hold both sides of ring tightly and unwind slowly. ATTENTION! Ring may snap open suddenly. When unwinding the ring keep away: (a) from children (b) from face (eyes!) Unfold net and turn inside out to attach hoop to net. To set, tie all (six) strings securely to the ring. Turn the net outward over the ring to expose the loop.]

[Assemble the 5 wire pieces, securing the ends together to form a circle.] [Loosen the drawstring at the top of the net.] [Insert the wire circle into the opening at top of net.] [and tighten the drawstring.]

Hang netting up [above] [the bed] [or] [area to be protected] by suspending [each corner] [from the supports provided] [from the ceiling] [using either the hook[s], [thumbtack] or [string] [provided]. If using over a bed, tuck the lower edge of the netting under the mattress to ensure a tight fit to prevent mosquitoes and other flying insects from entering, otherwise ensure that the base of the netting is in complete contact with the ground.

If netting becomes dirty, wash separately from other items, in warm water and allow to dry in shady area. Avoid sunlight when drying. Do not dry clean. Dry cleaning removes the active ingredient [permethrin].

Do not use for purposes other than originally intended. Do not re-treat netting with other permethrin insect repellent products.

STORAGE AND DISPOSAL. When not in use, store net [in outer packaging] in a cool, dry place away from children and direct sunlight. Discard of outer packaging and net in trash when net is worn out.
