"36-20" DISINFECTANT

**ODORLESS—TASTELESS
NON-VOLATILE—NON-CORROSIVE**

DIRECTIONS

1. For sanitation of dishes, glassware, cooking utensils, silverware, bottles, garbage pails, cuspidors, etc. Clean with a suitable detergent, rinse thoroughly, then dip in a sanitizing rinse made with 1 ounce of disinfectant and 3 gallons of water—air dry. **DO NOT USE A TOWEL.**

2. General Sanitation of inanimate objects: hospital wards, sickrooms, operating rooms, refrigerators, lavatories, urinals, hoppers, floors, etc. Add 1 ounce to 1 gallon of water, apply freely over surfaces to be disinfected.

3. For disinfecting clothes, towels, and linen: Soak for one hour in a solution containing 1 ounce of disinfectant in 3 gallons of water. Or, soak for 10 minutes in a disinfectant solution of 1 ounce to 2½ quarts of water. Stronger solutions can be used without injuring fabrics.

4. For disinfecting rubber goods: Soak in solution diluted 1 ounce to 2½ quarts of water, for 10 minutes, after having properly cleaned such items.

5. Barber shop and beauty parlor equipment: soak combs, brushes, razors, etc., for 10 minutes in a solution of 1 ounce of disinfectant added to two quarts of water, after having properly cleaned such items.

CAUTION: Harmful if swallowed. Avoid contact with skin and eyes. In case of contact flush with plenty of water. Avoid contamination of food.

**CAUTION:
KEEP OUT OF REACH OF CHILDREN.**
