LR471B-02T

6023631

USDA Reg. No. 1258-832

This product is an organic phosphate insecticide especially formulated for use only by Mosquito Abatement Districts, Public Health Officials, and Commercial Pest Control Operators. It is recommended for use wherever mosquitoes breed. It provides long residual control and is effective against DDT-resistant as well as non-resistant strains.

### SUGGESTIONS FOR USE

For mosquito larvae control, applications should be made to moist areas, standing water, shallow ponds, and around the edge of larger ponds, lakes, marshes, swamps and tidal areas. Also, apply around and on dumps, catch basins and similar areas where mosquitoes breed.

Apply at the rate of 5 to 20 pounds per acre uniformly. Repeat if necessary, but not within 21 days.

### CAUTIONS IN USING

This material is highly toxic to shrimp, crayfish and crabs. Do not apply where these are important resources.

Do not use inside homes, in dairy barns, poultry houses, or buildings where food is processed.

Do not use on crops to be used for food or forage.

**Destroy empty bags by burning (KEEP OUT OF SMOKE)**

### NOTICE TO BUYER

Seller makes no warranty, express or implied, by operation of law or otherwise, except that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use. This warranty shall not extend to the use of this product contrary to label instructions, or under abnormal conditions, or in combination with other materials or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any injury or damage resulting from such use. Seller shall not be responsible for special, consequential or contingent damages arising from a breach of this warranty.
