

Olin Pool Algicide is a new formula algicide developed by Olin Water Scientists for use in both above-ground and in-ground swimming pools. This new formula is completely soluble in water, does not cause foaming or cloudy water and does not plug filters. Olin Pool Algicide has proven effective against green, blue green, and black algae.

DIRECTIONS FOR USE IN POOLS THAT HAVE VISABLE ALGAE:

Add 12 tbs. (approx. 3/4 cup) of Olin Pool Algicide per 1,000 gallons of water. The next day brush walls and bottom of the pool to loosen dead algae and vacuum the pool. Repeat this treatment if necessary.

DIRECTIONS FOR USE IN CLEAN POOL FREE OF VISIBLE ALGAE TO PREVENT THE GROWTH OF ALGAE:

Add 6 tbs. (approx. 3/8 cup) of Olin Pool Algicide for each 1,000 gallons of water directly into a clean pool. Thereafter, add 6 tbs. (approx. 3/8 cup) per 1,000 gallons every three days.

NOTE: To control bacteria use Olin HTH Granular or Tablets. Refer to the label for directions for use.

DANGER: May be harmful or fatal if swallowed. May damage eyes. May cause irritation of skin, nose and throat. Do not get in eyes, on skin, or on clothing. Strong Oxidant. Do not mix with HTH or other pool chemicals. Mix only with water. Keep in original container. Always replace container cap. Rinse empty container thoroughly with water and discard it. Do not reuse empty container.

SPILL: If spilled, flush with plenty of water. If spilled on clothing, wash clothing thoroughly.

ANTIDOTE: External-Flood skin or eyes with plenty of water for 15 minutes. If irritation to skin persists, get medical attention. For eyes-Call a physician immediately. Internal-Drink large quantities of water or milk. Follow with milk of magnesia, vegetable oil, or beaten eggs. Call physician immediately.
