Subject: Omadine TEAO  
Letter Dated June 20, 1989  
EPA Registration Number 1258-991

The amendment referred to above in connection with registration under title is acceptable, provided that you make the following labeling revisions:

- a. On the left side panel, delete the term "Restricted Use Pesticide".
- b. On the left side panel, revise the use statement to read as follows: For use by formulators only in formulating Fuel Preservatives. Formulators using this product are responsible for providing data and adding a restriction statement to read as follows: "For Use in a Closed Delivery System Only" for the EPA registration of their formulated product(s).
- c. Revise the environmental hazards statement to read as follows:
 

**Environmental Hazards**

This pesticide is toxic to fish and wildlife. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
- d. Refer to PR Notice 83-3 for the appropriate Storage and Disposal statements.

Note that this letter will supercede our letter dated December 1, 1989.
