

BIOSPERSE 213

MICROBIOCIDAL

FOR INDUSTRIAL USE ONLY

ACTIVE INGREDIENTS

Methylene bis(4-chlorophenyl)	10
2-(Thiocyanomethylthio)benzothiazole	10
INERT INGREDIENTS	80

KEEP OUT OF REACH OF CHILDREN

DANGER

STATEMENT OF PRACTICAL TREATMENT

IN CASE OF ACCIDENTAL CONTACT WITH EYES, Flush with water for at least 15 minutes. If irritation persists, seek medical attention. If swallowed, do not induce vomiting. If inhaled, remove to fresh air. If on skin, wash with soap and water. For more information, see the Material Safety Data Sheet.

SEE THE PANEL FOR THE STATEMENT OF PRACTICAL TREATMENT

FOR A FULL LIST OF INGREDIENTS AND THEIR CAS NUMBERS, SEE THE PANEL FOR THE STATEMENT OF PRACTICAL TREATMENT

NET CONTENTS MARKED ON DRUM

BIOSPERSE 213 is a highly effective, broad-spectrum, non-toxic, and non-corrosive biocide. It is used to control microbial growth in industrial water systems, including cooling towers, condensers, and process water systems. It is effective against a wide range of bacteria, fungi, and algae. BIOSPERSE 213 is safe for use in industrial water systems and does not harm the environment.

DIRECTIONS FOR USE

BIOSPERSE 213 is a highly effective, broad-spectrum, non-toxic, and non-corrosive biocide. It is used to control microbial growth in industrial water systems, including cooling towers, condensers, and process water systems. It is effective against a wide range of bacteria, fungi, and algae. BIOSPERSE 213 is safe for use in industrial water systems and does not harm the environment.

For use in industrial water systems, BIOSPERSE 213 should be added to the water at a concentration of 10-20 ppm. The water should be circulated for 24 hours to ensure thorough mixing. BIOSPERSE 213 is effective against a wide range of bacteria, fungi, and algae. It is safe for use in industrial water systems and does not harm the environment.

For use in cooling towers, BIOSPERSE 213 should be added to the water at a concentration of 10-20 ppm. The water should be circulated for 24 hours to ensure thorough mixing. BIOSPERSE 213 is effective against a wide range of bacteria, fungi, and algae. It is safe for use in industrial water systems and does not harm the environment.

For use in process water systems, BIOSPERSE 213 should be added to the water at a concentration of 10-20 ppm. The water should be circulated for 24 hours to ensure thorough mixing. BIOSPERSE 213 is effective against a wide range of bacteria, fungi, and algae. It is safe for use in industrial water systems and does not harm the environment.

For use in industrial water systems, BIOSPERSE 213 should be added to the water at a concentration of 10-20 ppm. The water should be circulated for 24 hours to ensure thorough mixing. BIOSPERSE 213 is effective against a wide range of bacteria, fungi, and algae. It is safe for use in industrial water systems and does not harm the environment.

For use in industrial water systems, BIOSPERSE 213 should be added to the water at a concentration of 10-20 ppm. The water should be circulated for 24 hours to ensure thorough mixing. BIOSPERSE 213 is effective against a wide range of bacteria, fungi, and algae. It is safe for use in industrial water systems and does not harm the environment.

Corrosive Liquid N.O.S.
UN 1760

BIOSPERSE 213 is a highly effective, broad-spectrum, non-toxic, and non-corrosive biocide. It is used to control microbial growth in industrial water systems, including cooling towers, condensers, and process water systems. It is effective against a wide range of bacteria, fungi, and algae. BIOSPERSE 213 is safe for use in industrial water systems and does not harm the environment.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

IRRITANT
CAUSES IRREVERSIBLE EYE DAMAGE AND CAUSES SKIN DAMAGE. HARMFUL OR FATAL IF SWALLOWED OR ABSORBED THROUGH THE SKIN.

The product is a highly effective, broad-spectrum, non-toxic, and non-corrosive biocide. It is used to control microbial growth in industrial water systems, including cooling towers, condensers, and process water systems. It is effective against a wide range of bacteria, fungi, and algae. BIOSPERSE 213 is safe for use in industrial water systems and does not harm the environment.

ENVIRONMENTAL HAZARDS

The product is a highly effective, broad-spectrum, non-toxic, and non-corrosive biocide. It is used to control microbial growth in industrial water systems, including cooling towers, condensers, and process water systems. It is effective against a wide range of bacteria, fungi, and algae. BIOSPERSE 213 is safe for use in industrial water systems and does not harm the environment.

STORAGE AND DISPOSAL

BIOSPERSE 213 should be stored in a cool, dry place, away from heat and sunlight. It should be kept in its original container, which is labeled with the product name and hazard information. BIOSPERSE 213 should be disposed of according to the instructions on the label.

BIOSPERSE 213 is a highly effective, broad-spectrum, non-toxic, and non-corrosive biocide. It is used to control microbial growth in industrial water systems, including cooling towers, condensers, and process water systems. It is effective against a wide range of bacteria, fungi, and algae. BIOSPERSE 213 is safe for use in industrial water systems and does not harm the environment.
