

5% CHLORDANE DUST

ACTIVE INGREDIENTS:

Technical Chlordane * 5.0%
* (Equivalent to 3% Octachloro - 4,7-Methano-
tetrahydroindane and 2% related compounds.)

INERT INGREDIENTS 95.0%

TOTAL 100.0%

18 pt.
CAUTION: keep out of reach of children. Chlordane is toxic and may be absorbed through the skin. Harmful if swallowed. Avoid breathing dust. In case of contact with skin, wash with soap and water.

Do not use on dairy animals or those being raised for slaughter. Do not use in dairy barns. Do not use on household pets or any other animals.

DIRECTIONS: For ROACHES, WATERBUGS, and SILVERFISH apply ~~thoroughly~~ *thoroughly* to infested cracks and other hiding or resting places. In dwellings where children are present, dust application is not recommended. Use Chlordane Emulsifiable concentrates at recommended rates.

For FLEAS, TICKS, ANTS, and CHIGGERS, dust or pour use in equal amounts in infested areas including crevices of woods and high grass. A dust gun or dusting canister is recommended for application.

For Ants, use same as for roaches, particularly on any hills and trails, around heat ducts, water pipes, baseboards, door sills and window frames where ants may enter the premises.

For Lawns and Ornamental Turf. Ants and chiggers, apply 1 lb. per 500 square feet. Repeat as necessary. Japanese Beetle Larvae, grubs and soil waterworms, apply 1 lb. per 200 square feet. Soak with water to get material into nests and living places. Normally one treatment is effective for entire season. BIRDS FEEDING ON TREATED AREAS MAY BE KILLED.

Keep children and pets off treated areas until the chemical has been washed off and the area is dry.
