

## DIRECTIONS

Stir material thoroughly. Be sure area to be painted is clean and free of wax, grease or other similar substances. D&D REDWOODIZER is ready to use, no thinning is necessary. Flow on evenly. Brush out brush marks and runs. Allow at least twenty-four hours between coats. Brushes may be cleaned with paint thinner.

For interior work — Be sure wood is completely sanded. On wood paneling, furniture, brush with the grain of the wood.

## WARNING

Volatile, provide adequate ventilation. Keep container tightly closed when not in use. Harmful if swallowed or absorbed through skin! Causes skin irritation! Do not breathe vapor or spray mist. Do not get in eyes, on skin or on clothing. Wash thoroughly after handling.

**BRING CALIFORNIA  
TO YOUR HOME!  
Glamorize any and all  
wood with...  
D&D REDWOODIZER!**

D&D REDWOODIZER is a penetrating sealer, pigmented to produce a simulated California Redwood finish. It may be used interior or exterior. Wears very well. D&D REDWOODIZER allows the natural grain of the wood to show. One coat is sufficient on certain woods, others require two coats. Two coats will produce a longer-lasting finish. Further coats may be applied, according to user's desires.

For protection against termites treat wood prior to use in construction.

Lumber to be used in contact with soil should be dipped for a minimum of three minutes or, if applied with a brush or spray method, two or more flowing coats of D&D REDWOODIZER are necessary. Use on doors, cabinets, woodwork, wood paneling, tables, chairs. Be sure furniture is completely dry before using.
