TROPIC AIR

GLYCOL DEODORIZER

Contains Triethylene Glycol

DIRECTIONS

Lift protective cap. Hold TROPIC AIR container upright. Point valve opening away from face. Press red valve and spray upwards. Use sparingly, 3-6 seconds is sufficient for the average room.

TROPIC AIR floats into the room. Offensive odors and tobacco smells vanish. A pleasant tropic scent remains.

Economical and easy to operate . . . sprays 75 average sized rooms.

CAUTION: Do not store near stoves, radiators or in sunlight.
