Sursan 256

Disinfectant • Cleaner • Sanitizer • Fungicide • Mildewstat • Virucide • Deodorizer for Hospital, Institutional and Industrial Use

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Cross-contamination is of major housekeeping concern not only in hospitals, but in schools, institutions and industry. SURSAN 256 has been formulated to aid in the reduction of cross-contamination in these areas.

SURSAN 256 is a one-step disinfectant-cleanser that is effective against a broad spectrum of bacteria, is virucidal, fungicidal and will prevent the growth of mold and mildew and their odors when used as directed.

SURSAN 256 is an effective one-step sanitizer-cleanser for use on non-food contact surfaces.

When used as directed, SURSAN 256 will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause mal odors.

SURSAN 256 is a proven "one-step" cleaner-disinfectant-sanitizer-fungicide-mildewstat-virucide in the presence of moderate amounts of organic soil.

Apply SURSAN 256 to walls, floors and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks and bedframes with a cloth, mop or mechanical spray device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when use solution becomes visibly dirty.

Disinfection: To disinfect hard, non-porous surfaces, add 1/2 oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. At this use level, SURSAN 256 is also virucidal and fungicidal.

1/2 oz. per gallon use level: The broad spectrum activity of SURSAN 256 has been evaluated in the presence of 5% serum and found to be effective against the following by the AGAC Use Dilution test:

<i>Pseudomonas aeruginosa</i>	<i>Escherichia coli</i>	<i>Staphylococcus faecalis</i>
<i>Staphylococcus aureus</i>	<i>Klebsiella pneumoniae</i>	<i>Shigella sonnei</i>
<i>Salmonella choleraesuis</i>	<i>Enterobacter aerogenes</i>	<i>Brevibacterium ammonigenes</i>

AC Fungicidal Test: At 1/2 oz. per gallon, SURSAN 256 is effective against *Trichophyton mentagrophytes* (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, shower and bath areas, exercise areas, dressing rooms, etc.

Mildewstatic Performance: At 1/2 oz. per gallon, SURSAN 256 will effectively inhibit the growth of mold and mildew and the virus caused by them when applied to hard, non-porous surfaces. See label directions in general instructions above. A new mold stain will appear and repeat when mildew growth returns.

Virucidal Performance: At 1/2 oz. per gallon use level, SURSAN 256 was evaluated in the presence of 5% serum and found to be effective against the following viruses: Herpes Simplex (a member of the virus family that causes chicken pox, mononucleosis), Marburg (representative of the pox viruses), and Influenza A 2 (the Hong Kong flu virus) on inanimate environmental surfaces.

Sanitizing Non-Food Contact Surfaces (such as floors, walls, tables, etc.): At 1/2 oz. per gallon use level, 30 second contact time. SURSAN 256 is an effective sanitizing agent against up to 400 ppm hardness against *Staphylococcus aureus* and *Klebsiella pneumoniae* in the presence of 5% serum on porous and non-porous environmental surfaces.

Highly Concentrated Germicide Based on a Unique Blend of Quaternaries with Organic Soil Load Tolerance

1/2 OUNCE PER GALLON

Active Ingredients

Octyl decyl dimethyl ammonium chloride

Dioctyl dimethyl ammonium chloride

Didecyl dimethyl ammonium chloride

Alkyl (C₁₂, 50%, C₁₂, 40%, C₁₄, 10%) ammonium chloride

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

KEEP OUT OF REACH OF CHILDREN

DANGER: Corrosive. Causes eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID

EXTERNAL: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes.

For eyes, call a physician. Remove and wash contaminated clothing before reuse.

INTERNAL: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsions may be needed.

FOR EMERGENCY MEDICAL INFORMATION, CALL TOLL FREE 1-800-328-0025

STORAGE AND DISPOSAL

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or empty container is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office of guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
