Seller makes no warranty, expressed or implied, concerning the use of this or any other than as indicated on the label. Buyer assumes all risk of use and of function of the product when purchase and handling is contrary to label instruction.

FLUID CONTENTS

GALLONS

Directions For Use

For the control of accessible stages of grain weevil, flour beetles, meal moth larvae, cadelle, saw-toothed grain beetle, roaches, silverfish, ants, spiders, carpet beetles, cheese and flour moths, flies and flying moths.

As A Contact Spray For the control of crawling insects listed above, apply directly onto walls, partitions, floors in cracks, crevices, under skids, equipment scales, motor mounts, on ledges, in conveyor, proofers, behind switch boxes, bins, storage cabinets, floor drains, locker and lunch rooms and all places where insects may harbor and multiply.

Clean areas thoroughly before spraying. Dust and dirt absorb insecticide, which limits effectiveness. Repeat treatment when necessary.

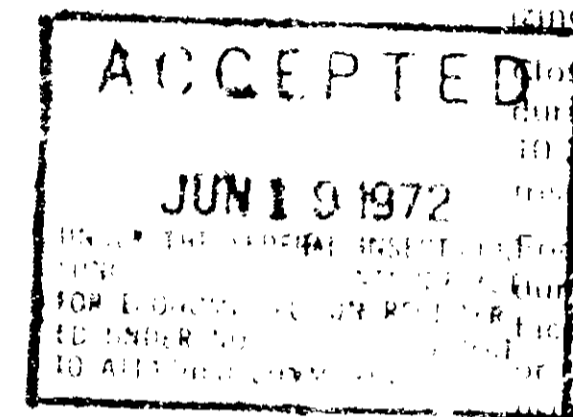

Directions For Use

As A Contact Spray For the control of crawling insects listed above, apply directly onto walls, partitions, floors in cracks, crevices, under skids, equipment scales, motor mounts, on ledges, in conveyor, proofers, behind switch boxes, bins, storage cabinets, floor drains, locker and lunch rooms and all places where insects may harbor and multiply.

Close all windows, doors and openings during fumigation operation. Keep closed for 10-15 minutes after application of insecticide.

Do not use in areas where food is stored. Do not use in areas where food processing equipment is used. Do not use in areas where food is stored or where food processing equipment is used.

Do not use in areas where food is stored or where food processing equipment is used.
